

JOHN G. CHENERY  
STRUCK DOWN;  
IN QUARREL;  
MAY DIE

Former Stone & Webster  
Man Here Was In San  
Francisco  
GOING TO PORTLAND  
Assailant, Employee In Turk  
Street Cafe, Is Under  
Arrest

(Special to The Republican)  
SAN FRANCISCO, Oct. 8.—John G. Chenery, a well known construction engineer of Fresno, is at Central Emergency hospital in a precarious condition with a basal fracture of the skull and lacerations of the head and chest. Chenery was found lying on the curb at Taylor and Eddy streets shortly after 3 o'clock yesterday morning. He was taken to the hospital by Central Station patrolmen, to whom he could make no coherent statement and has since remained in a state of coma.  
Investigation by the police led to the arrest of a man employed in a Turk street cafe, who gave the name of Tom Smith. A long witness said that he saw "Smith" and Chenery in a quarrel over the attentions of a pretty woman, in whose company Chenery was seen in some of the downtown tendorer cafes. A few minutes before Chenery was picked up unconscious, the witness, whose name is withheld by the police, says he saw "Smith" strike Chenery twice.  
When taken in charge by Corporal Smith of the Southern Station "Smith" at first denied any knowledge of Chenery. He told several conflicting stories, but when confronted by the witness held by the police, broke down and admitted the truth of the latter's statement. He was immediately placed in custody at the prison pending the outcome of Chenery's injuries.  
New York drafts and certified checks, representing a large sum, was found among other valuable papers on Chenery, but no cash. The police are of the opinion that Chenery may have been robbed before his meeting with "Smith," who acknowledges he lives with the woman in the case.

John G. Chenery, purchasing agent for the Stone-Webster Construction Company, resigned his position here the first of the month and left Fresno Tuesday afternoon for San Francisco, enroute to Portland, Maine, where he was going in the interest of an estate. Chenery was well known in Fresno and also about the Bay region, being a graduate of Stanford and a prominent Sigma Xi. He had been connected with the Stone-Webster Company for about three years and came here from Seattle. His mother, Mrs. C. A. Cushion, resides at the Hotel Standard in Seattle; her husband owning the establishment. Chenery while in Fresno lived at the St. Andrews apartments, sharing bachelor quarters with Eddie Welch and Al Pollack.

ENGINEER IS BLAMED  
FOR LABORER'S DEATH

Wm. Moeson Has Been Missing Since Day of Accident  
On Holland Building

William Moeson, the engineer in charge of a hoist on the new Holland building, was found missing yesterday for the death of Bernardino Lopez. Moeson has evidently left the city as Coroner Bean reported he had searched for him for two days and had been unable to locate him.  
Witnesses at the inquest yesterday testified that Lopez had stepped onto the hoist to remove a wheelbarrow when the hoist was suddenly lowered and stopped at the third floor. Lopez lost his balance and fell to the ground. The engineer, who carried a union card, was discharged for incompetency after the accident and has not been seen since. District Attorney McCormick was present at the inquest. It is doubtful if any attempt will be made to locate the engineer and prosecute him for manslaughter.

ROEDING IS STILL  
ON LOOKOUT FOR  
EXPERT GARDNER

George C. Roeding of the P. P. E. L. commission for this county is still on the lookout for an expert gardener for his experimental nursery to be established on county property for the purpose of trying out various plants in this district to see if they can be used in the exhibition in 1915 at San Francisco of products which thrive in Fresno county. He has tried out several applicants but says that none of them are up to the standard that he has set.

GIRL OF 13  
URNS SELF TO  
DEATH FOR LOVE

RAY, Ark., Oct. 8.—Maria Bastone, a 13-year-old school girl, burned herself to death today. She had failed to secure the affection of a grown man with whom she was in love.  
The girl soaked her clothing in kerosene and applied a match. She had locked herself in an adobe house, preventing any assistance.

U. S. MINISTER  
SECURES PEACE  
IN NEGRO ISLAND

Sullivan Declares American  
Government Will Tolerate  
No Further Trouble

SANTO DOMINGO, Dominican Republic, Oct. 8.—The American minister of the Dominican republic, James M. Sullivan, has induced the warring factions in this country to sign a peace pact; and the revolution headed by General Horacio Vasquez against the government of the provisional president, Jose Bordas Valdes, is at an end.  
Sullivan has made it known that the last civil war in this republic has been fought. In the future any uprising, he says, will be stamped out as criminal. The American policy as announced by Sullivan has been accepted by all parties regardless of political affiliations.

RAILROAD FINED  
FOR OVERWORKING  
ITS TRAINMEN

LOS ANGELES, Oct. 8.—The San Pedro, Los Angeles and Salt Lake Railroad Company was found guilty and fined today in the United States district court on a charge of working its employees overtime. Judge Olin Wellborn instructed the jury to return a verdict of guilty for a violation of the interstate commerce law.  
The railroad was assessed \$100 each for sixteen engineers and trainmen, \$150 each for six trainmen, and \$150 each for four telegraph operators, all employed overtime, according to the charge.

TO DEVELOP POWER  
FROM RUBICON RIVER

Permit for Company to  
Supply Stockton and  
Sacramento

WASHINGTON, Oct. 8.—A federal permit to develop water power on the Elgin National Forest, California, for use in Sacramento, Stockton and a number of other California towns, with a possibility of its extension later to San Francisco, has been granted by Secretary Taft to the Truckee River General Electric Company. About 16,000 horsepower will be developed at first. That will be doubled as the market increases.  
The water will be from the Rubicon river, a tributary of the Yuba and a half mile long to be built.

INDOOR BASEBALL TO  
OPEN NEXT WEDNESDAY

League Formed At Meeting  
of Business Men In Y.  
M. C. A. Last Night

The Businessmen's Indoor Baseball league was formed last night at a meeting of winter fans in the Y. M. C. A. building and the opening date chosen. The first game will be played next Wednesday evening, with games twice a week. Forty-four men have signified their willingness to open the season and have signed contracts for eighteen weeks of play. For the present the teams will be distinguished by numbers.  
Following are the members of the teams:  
No. 1.—Ken Wakefield, capt.; R. A. Van Buren, J. A. Heiss, H. F. Jones, Shirley W. Shaw, G. H. Robbins, Bob Peterson, W. F. Tomney, O. T. Berry, Green, A. G. Wahlberg.  
No. 2.—D. A. Wakefield, capt.; J. M. Conley, Bob Boyd, Ivan Long, G. T. Whitman, C. L. Miller, Valdes, A. R. Jack, Leo Grosse, J. M. Swift, H. W. Edwards.  
No. 3.—Ed Van Buren, Jr., capt.; Chas. J. J. Anderson, Coleman, Box J.uch, H. B. Ashton, A. E. Balch, R. Fleming, W. B. Munson, F. E. Warner, Frank Robbins.  
No. 4.—J. M. Brown, capt.; Shaefer, Knowles, Wm. Lanchester, J. W. Warner, Wilson Hopkins, Gus Heyderick, R. W. Baker, H. C. Avery, G. W. Anderson, Doling.

BANKERS REPEAT  
DEMAND FOR  
CHANGES IN  
BILL

Term Socialistic Is Applied  
to Glass-Owen Measure  
Now In Senate  
BOSTON CONVENTION  
Two Thousand Financiers  
From All Sections of  
Country In Gathering

BOSTON, Oct. 8.—The bankers of the United States again declared today their opposition to the proposed federal reserve plan of reform in the currency and banking system.  
More than 2,000 bankers from all sections of the country gathered at the first day's sessions of the annual convention of the American Bankers' Association, ratified the action of the conference of bankers in demanding amendments to the federal reserve act, now pending in Congress. The financiers also approved the work of their own emergency committee, which earlier in the day had reported the system of governmental control proposed in the Glass-Owen bill to be socialistic, and imposing "unwise hardships upon the banks, and equally unwise hardships upon the general public."  
Resolutions thanking the President and Congress were adopted as follows:  
"Resolved: That we approve the work of the currency commission and that we ratify and endorse the action of the Chicago conference, the conclusions they reached and the recommendations they made."  
"Resolved: That we urge upon Congress the wisdom and the necessity of incorporating into the proposed law the amendments recommended by the Chicago conference, all of which have been elaborately presented to the committee on banking and currency of the United States Senate, before which the proposed law is now pending.  
"Any law passed by Congress in order to be effective and realize in full measure the hopes of those who are seeking currency reform, must command the approval and enlist the cooperation of the banks of the country, both state and national."  
"Resolved: That we commend the President, the secretary of the treasury and Congress for their efforts to create in this country an elastic as well as a safe currency and pledge them our hearty support for the enactment of proper legislation to that end."  
Acting President Reynolds gave the gavel over to another, and made this statement:  
"This meeting resulted in the most positive action ever taken by the bankers of America on the currency question."  
"There were present about 2,400 bankers at this convention from all parts of the United States. Yet there was only one dissenting vote when a resolution was called for. I do not think it will be possible to give the members of Congress a clearer expression of the views of the bankers than was extended."  
"This has been given without desire in any sense to antagonize the administration or the committee of Congress, but rather to give them an honest and frank expression of the changes necessary in the proposed bill, to make it properly serve the general commercial interests of the country."  
The general nominating committee announced tonight the nomination of Arthur Reynolds of Des Moines, the present first vice-president, for president.

MRS. THOMAS BOYD  
AT POINT OF DEATH

According to word received here last night from Santa Cruz, Mrs. Thomas Boyd, wife of the pastor of the First Presbyterian church, suffered another relapse last night and is in a very serious condition which she is expected to survive but a short time. The same physicians are in attendance but hold out but very little hope for her recovery.

FRESNO RUGGERS TO  
OPEN SEASON WITH  
BATTLE AT HANFORD

The Fresno high school Rugby team opens its season next Saturday with a game at Hanford. For the past month, Coach Hunt has been putting the locals through a stiff course of training, with most satisfactory results. Those to be given a tryout in the game Saturday have not been chosen as yet. The game at Hanford will be one of the features of the Kings county fair.

MONEY FOR STATE PRINTING

SACRAMENTO, Cal., Oct. 8.—By a decision rendered yesterday by Attorney General Webb, State Superintendent of Public Instruction Hays is authorized to sign eight thousand dollars for the printing of a teachers' register and other documents from his office which the board of control had refused to sanction under the belief that the money could not be used for that purpose. The state board of health gave the use of an amount of money for printing by the same decision.

CONGRESS MUST  
REPEAL PART OF  
NEW TARIFF

Five Per Cent Reduction  
Would Apply to Virtually All Imports  
SENATORS ARE ANGRY  
Object to Being Abused for  
Not Agreeing to  
Currency Bill

WASHINGTON, Oct. 8.—If the consent of Representative Underwood and other House leaders can be secured tomorrow, a joint resolution will be passed through Congress within a few days repealing that portion of the new tariff law authorizing a 5 per cent tariff rebate on goods brought to this country in American-owned ships.  
This decision was reached after experts of the State and Treasury departments had decided that to carry out its exact terms would mean a reduction of 5 per cent in tariff on goods from practically all of the chief exporting countries excepting Brazil, France and Russia.  
Senator Simmons, chairman of the Senate finance committee, gave assurance that the Senate undoubtedly would agree to a repeal of the entire clause.

WASHINGTON, Oct. 8.—Attacks on members of the Senate banking and currency committee, and efforts to curtail the currency bill, were continued today in an informal executive session of the committee tonight. Senators O'Gorman and Hitchcock, singled out as individual objects of attack, will offer the last three days, two attacks will be made, the committee will then report the bill to the Senate.

HOUSE FILIBUSTER

WASHINGTON, Oct. 8.—Minority Leader Mann continued today his filibuster against reference of the currency bill to the committee on banking and currency, until a quorum of members returns to Washington. When the house adjourned at 2:44 o'clock it was twenty short of a quorum.  
Not only was the House without a quorum today, but without a speaker and a clerk. Speaker Clark was working for the re-designation of Representative Shirley of Kentucky as speaker pro tem, and Shirley acted notwithstanding the fact that the minority leader insisted he had been named irregularly.

DENIES ANY PRESSURE

WASHINGTON, Oct. 8.—Reports that President Wilson was attempting to "peel" Democratic senators and to make a "rebel" any Democrat who did not support him, brought an emphatic denial from the White House today. The President made public the following letter:  
"To the editor of the Washington Post:  
"Sir: I am quoted in your issue of this morning as saying that any one who does not support me is no Democrat, but a rebel. Of course, I never said any such thing. It is a statement made by some one else, and I must ask that you give a prominent place in your issue of tomorrow to this denial."  
"Very truly yours,  
"WOODROW WILSON."

MAY WIN SENATORSHIP  
There was a disposition to look on the currency situation as the way to amenable adjustment. The President, it was said today, feels that Senator Reed of Missouri would soon join the administration supporters in the banking and currency committee and that Senator O'Gorman would in the end side with the majority. There was no such sanguine feeling, however, with respect to Senator Hitchcock of Nebraska.

NAVAL PROGRAM

WASHINGTON, Oct. 8.—Big navy men in the administration were jubilant today over the prospect of three battleships being proposed in the new naval appropriation bill as an administration policy.  
Semi-official announcement that such a building program might have the support of the White House to out the United States back in the place it occupied among naval powers before the last congress reduced the program to one dream, attracted wide attention in Congress.

SUICIDAL FAST  
OF 67 DAYS ENDS  
IN WOMAN'S DEATH

PALO ALTO, Cal., Oct. 8.—Mrs. Grace H. Foss died today of starvation after a fast of sixty-seven days during which time she took no nourishment excepting water. Mrs. Foss, who was 45 years of age, had resisted all attempts to force food upon her. Her decision to starve is attributed to melancholy. She was the wife of Joseph Foss, a Palo Alto contractor.

CHICO BEET SUGAR  
PLANT MAY CLOSE

Large Acreage to Be Planted  
to Grain, Following  
New Tariff

(Special to the Republican)  
CHICO, Oct. 8.—Rumors, persistent ever since it became known that the Democratic tariff bill would pass, took well defined form today, practically confirming the report that the Sacramento Valley Sugar Company would close down its large factory at Hamilton City and discontinue the culture of sugar beets at the close of the present season. Ranchers, who in the past have raised thousands of acres of sugar beets under contract with the company, have been notified that the contracts would not be renewed next year. The company also has made arrangements to plant a large area of its own holdings in grain next year, instead of beets. It is said, although officials of the company refuse to affirm or deny the report, that no money has been made the last few years and that the outlook of clearing a profit in the future under the new tariff status is not bright. The company owns about five thousand acres, all of which has been planted to sugar beets, and raises about five thousand more scattered through the valley all the way from Woodland to Chico. About five hundred men are employed in the factory during the operating season, which is about five months out of the year.

HINDU POSSIBLY  
CAME TO FRESNO

Report That Slayer of Girl  
Was Seen On  
Train

OAKLAND, Oct. 8.—Taze Khan, Said Amir and Said Cashi, Hindus employed by the California Cap Company, were arrested by the Richmond authorities tonight in connection with the killing of Rosa Domingo, whose body was found in the hay last Saturday.  
SAN FRANCISCO, Oct. 8.—Said Ali Khan, a Sikh, wanted for the murder of Rosa Domingo, took a Santa Fe train early in the morning and rode to Santa Fe, N. M. This information was supplied to the police today by a Santa Fe news dealer, who rode on the train and recognized Said Ali by published pictures.

Up to a late hour last night neither Fresno county officers nor the police department had been able to make a search for the Hindu suspected of the murder of Rosa Domingo in the hay regions last week. The local officers believe that if the San Francisco police find any evidence in the report that Said Ali was in hiding in Fresno they would have at least sent his description to this city.  
Special Agent Phillips of the Santa Fe with headquarters in this city early Tuesday morning stopped a Hindu at the Santa Fe depot and questioned him. The Hindu was much older than the fugitive, and did not answer the questions, but his actions aroused the suspicion of the special officer. The Hindu had in his possession a small picture, resembling the photo of the Hindu being sought for the murder. The suspect gave his name as Rajad Singh. He is working on the section for the Santa Fe, a mile or so from the city. He stated that he had not slept well for several nights and that he trusted no more to himself. Phillips stated last night that he was sending the information to Sheriff Veal at Martinez, who is working on the case.  
A. Smith, who gave the information to the San Francisco police that the murderer had traveled to Fresno on the same train with him, is not known at the local depot, but it is presumed that he is now butchering working out of San Francisco.

YESTERDAY IN CONGRESS

SENATE.  
Not in session, meets Thursday afternoon.  
President Frank A. Vanderlip of the National City Bank gave views on currency reform to the Senate banking committee.  
HOUSE.  
Resumed business of getting a quorum to work on the urgent deficiency bill.  
EMBEZZLER SENTENCED.  
FAMILY IS DESTITUTE  
SAN FRANCISCO, Oct. 8.—Robert T. Hooper, in charge of the first department of the Mercantile Trust Company, was sentenced to eleven months in the county jail today by Judge San Quentin presiding today for embezzling \$17,500. A motion for probation was opposed by counsel for the company. Hooper has a wife and seven children, virtually destitute.

SULZER TO MAKE  
NO PERSONAL  
DEFENSE ON  
CHARGES

Plea Is That He Does Not  
Wish to Hide Behind  
His Wife

CLOSES TESTIMONY

Sarecky Testifies to Remarkably Careless  
Methods of Accounting

ALBANY, N. Y., Oct. 8.—Without calling either Governor Sulzer or his wife to the witness stand, his counsel today rested their defense in the trial of his impeachment. According to D. Cady Merrick, chief of his attorneys, Governor Sulzer decided not to defend himself in person because he did not want to be placed in the position of shielding himself behind his wife—for it was for Mrs. Sulzer, according to the testimony, that the governor had his Wall street dealings.  
Tomorrow and Friday will be devoted to summing up the case by the opposing counsel. The trial will adjourn from Friday to Tuesday, as Monday will be a holiday.

Friends of the governor pictured him tonight as a man who martyred himself for the sake of his wife.  
The sudden announcement that the case for the defense was closed, created a profound sensation. Only a few days after the trial began, Governor Sulzer told newspaper men that he positively would appear in his own defense. He said that at that time he would have been in a great hurry to see Governor Charles F. Murphy, leader of Tammany Hall, to take the stand in his defense also.  
DENIES COUNTER ATTACK.  
The closing of the laying of testimony by the defense was announced by Attorney Merrick immediately after President Judge Cullen had refused to admit into evidence a story of alleged graft, involving Duncan W. Peck, superintendent of public works, who testified early in the trial that Governor Sulzer had asked him to deny under oath that he had made a \$500 campaign contribution.

SHOWING UP SARECKY

Today John B. Stanchfield put Sarecky on the stand and continued a searching cross examination in an effort to discredit his story.  
Sarecky testified he had received and deposited in a trust company to his own account about \$12,500 of the Sulzer contributions. Of this amount he accounted for the expenditure of \$7,724. Pressed for an explanation of the disposition of the remaining \$4,776, he said he had received \$800 and \$500 to settle a judgment obtained against Sulzer by "Fred Hastings and his father of Seattle, Wash." He said he advised the governor that his claim had been paid and that he had made a \$500 campaign contribution before the campaign statement was filed. In spite of continued questioning Sarecky said he was "utterly unable" to account for additional expenditures.  
He denied all knowledge of an alleged \$2,000 contribution by the late Charles Terhune, a wealthy New York piano manufacturer and horse breeder. A letter to Kohler, thanking him, signed "William Sulzer" was placed in evidence. This constituted a lengthy cross-questioning of the methods employed by Sarecky in acknowledging campaign contributions.  
Stanchfield then directed his questioning to the testimony of former Senator Studier, who requested that acknowledgments of contributions be sent to individuals identified with the liquor interests from whom he had collected a Sulzer fund. The attorney emphasized the fact that the acknowledgments sent in accordance with this request had not specified the amount of the contributions.  
" weren't these collected through a third party?" Stanchfield asked.  
"They were," Sarecky replied.  
"Then why didn't you specify amounts?"  
"Because I don't remember receiving a request to do so from former Senator Studier."  
"How now did you differentiate between the acknowledgment you sent to Ezekiel Fisman and those which you sent to brewers?"  
"In the Fisman-Stoiber case the contribution was made for a third party whose principal was abroad—I should have added that," Sarecky said.  
"I see," Stanchfield remarked. "Does the fact that it came from abroad change your answer?"  
"It does not," Sarecky replied.  
During this line of questioning Sarecky for the first time showed signs of nervousness.

SULZER KEPT NO BOOKS

Briefly questioned on re-direct examination, Sarecky said that no far as he knew, "Mr. Sulzer did not keep any books of account."  
To a query as to whether the witness answered that when the campaign was over there was only \$30 left in his trust company account.  
"The governor said to me, 'buy yourself a suit of clothes with it,'" said the witness.  
The only other testimony introduced by the defense today was by Hugh J. Reilly, a contractor for the Cuban government, that he had loaned Governor Sulzer \$25,000 and by John N. Carlisle, state highway commissioner for New York, who introduced a document in which he had recommended the passage of an executive bill which the governor signed. This was the bill of Assemblyman Prime, in 1907, which was alleged in the impeachment charges, the governor had turned his political influence.

175 SPANIARDS  
MASSACRED  
IN CENTRAL  
MEXICO

Torreon Now In Hands of  
Constitutionalist  
Rebels

FEW AMERICANS LEFT

Rumors That General Trucey  
Aubert Has Become  
Insurgent

MEXICO CITY, Oct. 9.—Private dispatches received here today tend to confirm last night's rumors of a great massacre of Spaniards by the rebels after the capture of Torreon. The dispatches are that there was a slaughter of 175 Spaniards in the city. The dispatches came from Madera, midway between Torreon and Saltillo.  
MEXICO CITY, Oct. 8.—Another unconfirmed report tonight is that General Trucey Aubert, who with a thousand men left Saltillo three weeks ago to march to the relief of Torreon, has gone over to the rebels.

MEXICO CITY, Oct. 8.—With the capture of Torreon by the rebels, rumors became current today of a massacre of Spaniards, which if confirmed, would approach the horror of the massacre of Chinese in the same city in the Madro revolution in 1910.  
The Spanish minister to Mexico, Cogan, was without information tonight further than the reports but was greatly concerned. He held a long conference with the American charge, Nelson O'Hanlon, and the latter made an appointment with the Mexican foreign minister. The American charge, is convinced of the truth of the capture of the city and has so notified Washington. Few Americans are left in Torreon.

Basils between 60 and 100 Spaniards, there are a number of French and German residents in Torreon. Their diplomatic representatives here are making efforts to learn their fate.  
Every effort is being made by the authorities here to keep the news of the affair from the public.  
Gorron has been under siege for many weeks, but it was recently reported that the rebels had been driven back. It always has been declared by the authorities to be impracticable because of the heavy artillery with which it was protected.

OAKLAND MAY YIELD  
CORPORATION CONTROL

Fifteen Cities So Far In  
California Have Given Up  
Rate-Making Power

OAKLAND, Oct. 8.—A movement has been under way in this city to have the control of public service corporation charges transferred from the Oakland city council to the State Railroad Commission.  
SACRAMENTO, Oct. 8.—Fifteen cities of California have voted to surrender to the State Railroad Commission the right to fix the rates which public service corporations can charge for service since the public utilities act of 1911 has been in operation, according to a report made today by Secretary of State Jordan. The actual valuation of the operative property owned by private corporations, the jurisdiction of which has thus been transferred from the municipalities to the state commission, is estimated at \$200,000,000. The assessed valuation reported by city assessors totaled approximately \$4,200,000 in March, 1913.  
To authorize the fixing of rates hereafter in the hands of the railroad commission, the fifteen cities held special elections. The municipalities which have thus relinquished their rights are: Santa Monica, Palo Alto, Willes, Orange, Covina, Monterey, Pomona, Antelope, Salinas, Eagle Rock, Helmdere, Oxnard, Daly City, San Jose and Huntington Beach.

DENY DEATHS CAUSED  
BY BUBONIC PLAGUE

BELLINGHAM, Wash., Oct. 8.—The local health authorities insisted today there was no connection between the dozen sudden deaths, mostly of children, in this city during the last three weeks, and the finding of a rat infected with bubonic plague in Seattle. They say that in each instance death was due to colitis, resulting from the eating of fruit which was picked from and forced to be imported from the state of health, yesterday requested the health officer W. W. Ballantine to make a further investigation of the deaths, fearing that infectious rate might have been brought here by steamer. Dr. Ballantine found no evidence of bubonic plague here.  
GET RID OF COPPER.  
NEW YORK, Oct. 8.—The statement of the Copper Producers' Association for September, shows a decrease in output of 8,529,913 pounds, compared with August.

## Through Clash of Clans

(Copyright, 1913, by the New York Herald Co. All rights reserved.)

As the rival teams lined up for the last crucial game of the football season hundreds of pairs of eyes—belonging to certain knowing students of the home college—focused anxiously on a common point in the midst of the unbroken sea of variegated color produced by the waving flags, streaming pennants and fluttering ribbons of the banded humanity which lined the sides of the great arena, the stunning eyes concentrated upon two antithetical prominent figures—those of Owen Duncan, the giant guard, and Filt Fletcher, the little quarter back.

When the knowing owners of the soulful eyes recognized those two familiar figures, each in its accustomed place, a great sigh of relief and anticipatory exultation went up from the vast breasts of the loyal home rosters, for not a man of them doubted the outcome of the impending titanic struggle with that peerless pair in place and fettle.

That the two were in place in the lineup, the anxious ones satisfied themselves by ocular evidence, and that both were in fettle and thoroughly "fit" for the climactic combat they had caught a fleeting glimpse of the contented expression on the swarthy face of Filt Fletcher.

This was the last season of the famous pair, too, as well as their last big game of the season. Both were senior men, and the simultaneous graduation of two such stars would

be a sore blow to the university's athletics. In addition to being admittedly the greatest guard in the football history of his college, giant Owen Duncan held all intercollegiate records for hammer throwing and shot putting, while "Little Filt," as he was affectionately known, was an American amateur sprinter and the greatest quarter back of his day.

Many of those knowing ones knew also that these two physical opposites were inseparable bosom friends. As a matter of fact, his own brother-in-law, Filt Fletcher, had been chosen for "Little Filt" a depth of affection that was almost tender, and Filt never tired of asserting that "Owen Duncan's the greatest thing the Lord ever manufactured in human flesh and blood!"

Out there in the field, even while waiting tensely for the starting signal, Owen's gaze was irresistibly drawn to a characteristic blue ribbon which fluttered from a girl's hat. With vivid certainty that ribbon marked the spot occupied by the center of the enormous stretch of solid humanity which covered the whole longitudinal north side of the great enclosure.

Just as Owen's eyes turned reluctantly from the ribbon they met Filt's alert gaze, and the big guard winked telegraphically, while the little quarter back smiled in genial understanding. Owen's great secret was no secret to the trusted and trusty Filt, who knew that his friend's heart had long ago been stolen by the sweet, demure face from above which fluttered that revealing, unmistakable blue ribbon.

Filt knew, too, that the otherwise dauntless Owen, unable to get his courage up to the "popping" point, had recently been suffering the diabolical tortures which Old Nick seems to preserve exclusively for his chosen ones. These sufferings were precipitated by the indubitable nature of the industrious attentions which a fellow classmate, the wealthy Walter Devlin, had lately been showering upon the charming Vera. At this very moment, indeed, Devlin was in the center of the crowd, his hand on the arm of the girl's big touring car.

Down in the bottommost depths of his heart Filt, though intensely sympathetic with his friend's misery, was profoundly glad that so long as things had to be thus they were thus just at this particular time, for on the one hand, Filt Fletcher, captain of the team, knew that this day he and his men were up against the battle of their lives, a cyclonic conflict in which a single ounce of muscle or a single instant of speed, one lung or one breath or one fiber of nerve power might be the deciding factor; while on the other hand Filt Fletcher, the bosom chum of Owen Duncan, and the man who understood him better than did any other living being, knew also that things being just as they were, including the presence of that fluttering blue ribbon, dangled from the regular wind coquetically in Devlin's face, the giant guard would play like a mad Goliath and nothing human would be able to stand against him.

So the shrewd Captain Filt Fletcher smiled with genial confidence as he critically scanned the opposing lineup and waited for the signal that should start the heart-breaking battle.

A minute after that exchange of glances the great conflict was on in deadly earnest and the immense throng of packed humanity, banded in those colorful tiers around the three sides of the enormous rectangular stadium, grew tense and silent.

**THE STRENGTH OF "BIG" DUNCAN**

A hundred times during that wild, breathless conflict, when Captain Filt, and especially for the presence of that fluttering thing called a blue ribbon. For always the towering, massive figure of Duncan was in the thick of the fray, always the might of his mighty strength was white to the fierce, desperate charges of the formidable adversary, and always wherever he plunged strong men gave way before him or were brushed helplessly to earth like puny puppets.

As the crazy home rosters hysterically followed the course of the mad-

### Be Sure Before You Spend Your Money

People who get the worth of their money are people who think before they buy. They buy the things they want at the time they want them and pay the lowest market price.

Competition is their servant. They know who's who and what's what.

They are readers of advertisements in live daily newspapers like The Republican.

They look upon advertising as a guide to their intelligence. They count it as a good friend who saves them time and money.

They get their money's worth always.

As a rule they are prosperous and thrifty.

It is a reader of advertisements. Get the full value of the service this newspaper has to offer you.

Be sure before you buy and then you will buy with wisdom.

### All Agree That Better Meals Are Impossible!

Of course we might charge you more for the excellent foods we serve, but to improve their quality or the manner in which they are served—that's impossible.

Majestic patrons find much to praise in the choice meats and vegetables, that we serve and the way in which they are served.

—Fine wines and liquors.

### MAJESTIC Restaurant

2026 FRESNO STREET

dening game those aforesaid knowing ones realized that it was only big Owen Duncan's irresistible strength and endurance and Filt Fletcher's miraculous skill and speed that won the tempestuous battle for the home team that day.

The big guard was invulnerable and invincible; nothing could overwhelm him, nothing stay him. He tore over the field, his feet as if he were swept down the field, carrying all before him; he met the crash of their wild onslaughts and held his ground while their grim warriors swarmed over every available inch of his great body in vain attempts to bear him to earth.

And Filt, "Little Filt," was everywhere at once—as hard for opponents to find as a wriggling eel; as impossible to overtake as the Twentieth Century Limited when she hits the rail under full steam.

Vera Kirby was pale with excitement when the final gong rang the end of that stupendous combat and the sear triumph of the bedraggled home warriors.

With little Jessie, her seven-year-old sister clinging to her hand upon one side and beaming with delight on the other, she walked dutifully but obviously at her escort's remarks and silent in spite of the child's ceaseless stream of wondering, admiring prattle about "our grand Owen," moved with the great mass of humanity through the narrow lanes of seats toward the big exit gate in the southwest corner of the field.

The wide western end of the grounds was occupied by an immense gymnasium building, into the ground floor of which the players had all rushed immediately upon the termination of the game. All but two, however, the home team's giant guard and his small but wiry and marvelously active quarter back.

Filt walked off to the far eastern end of the field to search for a shoe which he had lost in one of the scrimmages, while Filt Fletcher, in the center of the empty arena, his eyes again glued upon the blue ribbon, which his gaze had instinctively sought whenever a pause in the game permitted his glance to wander.

And still his eyes followed the band of color as, in the act of the dance, it moved toward the short, wide roadway which, terminating in the great exit gate, was formed on the one side by a transverse wall of the vast gymnasium building and on the other by a portion of the solid fifteen foot fence that surrounded the remaining three sides of the entire field.

But, see! What was that sudden turmoil in the short exit road through which the sophomore and freshman classes were leaving the grounds in a single, compact body?

Hark to those shouts and cries of menace and defiance coming from both within and without the grounds! What the mischief was going on, anyway?

From the exit end of the field proper the guard, slightly off toward the wide roadway, while the latter again declined still more toward the gate. Aided by this difference of elevation, which was supplemented by his own towering height, Duncan beheld a mob of dark forms in close mass, pouring furiously in through the gate from the street and falling fiercely upon the two departing classes corralled in the roadway.

But the seething sophomores and freshmen must have received some sort of warning, for instead of being taken by surprise and overwhelmed they were already prepared for the attack. The consequence was a ferocious pitched battle as shoulder to shoulder, the men of the combined classes fought savagely until the short, wide roadway between the grounds and the exit gate was a turbulent sea of desperately struggling humanity, from which rose the conflicting roars of class yell and the reverberating booms of college alarms.

In the first moment Owen was utterly unimpressed; in the next he comprehended the mad mad rush and fully it was the inevitable culmination of a plumb line, bitter feud which had broken into open conflict on several occasions, growing each time in intensity, and which had long existed between the medical students and the sophomores—the latter supported in this special case by the freshmen for the mere sake of the excitement—by their hereditary and otherwise consistent foes, the freshmen.

"OH, FOR A CENTER RUSH!"

Before the snarl of amused disdain which began to creep over Owen's face, the guard had reached even the corner of his mouth it froze in its inception and the blood went cold in his veins as his quick eye detected there in the very heart of the flying flats and the crazy, heaving mass the flutter of a blue ribbon.

Vera Kirby, little Jessie caught in that anathema of surging savagery, surrounded by wild men as blind with excitement and passion during their brutal minutes as nature ever made mole for the whole span of its burrowing existence! And, even were they not blind, as they were not, that boiling blood would instantly at the sight of a waving ribbon as long for the white hot lava of Vesuvius to turn out of its course in order to spare the peaceful lambs in its path. Moreover, the few close enough to see the girls could not, if they would, stay the crush of the mad mob once it had behind, while explanation or exhortation was impossible in that thunderous uproar.

But these thoughts had not run the compass of his brain when Owen, his jaws set, was charging toward the central like an elephant on a stick with wild rage at the bungling shot of a hunter.

Straight into the dense mass he crashed—tearing, heaving, smashing; caving ribs with the pile driver thrusts of his massive elbows; clutching through a grip that made the eyes bulge and the heads roll back—as when a farmer's thumb nips the necks of tender squabs; cracking heads together like resounding billiard balls; shaking from his shoulders, as a St. Bernard might a swarm of rats, those who, leaping upon his lavishing figure, sought to bar his downward path by sheer weight. Right through them he went, not even scrupling to meet the dangerously resistant with merciless blows of his ponderous fists. On! On!—straight for the blue ribbon!

Away off, at the far end of the field, Filt Fletcher, after recovering his breath, shot a look toward the scene of the sudden conflict. He was just in time to behold the effect of his idolatrous friendship crash through the outer crust of humanity and vanish in the seething chaos.

In anxious curiosity Filt leaped upon the empty benches and rushed up the ascending tiers to the topmost row. Overlooking from that vantage the heads of the combatants, he beheld in the very center—the gleam of the blue ribbon that Owen bore aloft—his friend pointed out to him with terse exclamation which Filt's position as exclusive confidant made easy of interpretation.

"Haven't—Vera Kirby in the midst of that raging college devilry!"

For Filt, too, knew well the utter intoxication of a genuine fight. If in front there were any with eyes clear enough to see the girl and brains calm enough to realize the jeopardy to her frail form with which

## A Great Blanket Sale Is Now In Progress

The largest and most complete assortment of blankets ever shown in Fresno is offered in this sale. Quantity buying enables us to quote lower prices than have ever before been quoted in Fresno for equal qualities.

### "Build With Brick" Use Our Prize Winning Brick

We have again shown that our brick is the best of all.

We did this by winning first prize at the Fresno District Fair.

Our booth in the pavilion was surrounded by an interested crowd all of the time, who spent much time in examining the many different shades of ornamental brick and the splendid assortment of common brick and tile.

Many of the visitors were people who are going to build and they obtained many ideas of ornamentation by viewing our exhibit.

The winning of the prize shows what judges think of our brick.

### HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy, none the less, real trouble that causes all the pain and difficulty is acid in the stomach, usually due to, or aggravated by food forces that cause the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, thus that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases, and they comprise over 80 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation. This is done by the use of cold water immediately after eating, half a teaspoonful of bicarbonate of soda, which is doubtless the best and only really effective method and food rest is known. The acid will be neutralized and the fermentation stopped almost instantly and your stomach will be in a position to digest the food in a healthy, normal manner. Be sure to ask your chemist for the bicarbonate of soda. Its peculiarly valuable properties.—F. J. G.—Advertisement.

### Make Your Bank a Business Asset

Just as you judge others by their appearance, you are judged among your business associates by your banking connections.

There is a distinct advantage in writing checks against a bank so favorably known as the Bank of Central California. It is an indication of your position in the business world, of your judgment, and of the esteem in which you are held. You will find it a convenience in many ways.

LOUIS EINHORN, President  
MAX FRANKENAU, V. Pres.

Eczema in any form, whether acute or chronic, is easily and rapidly overcome by the use of Meritol Eczema Remedy. Gives positive relief when all others fail, and we heartily recommend it to any sufferer. Patterson Block Pharmacy, Exclusive Agents.

## JEWISH ATONEMENT DAY PROGRAM

### ARRANGED

Three Services to Be Held  
Beginning Tomorrow  
Night At 8  
Special Hebrew Music To  
Be Rendered On This  
Occasion

Yom Kippur, the Jewish day of atonement, will be observed with appropriate services here, beginning at sundown tomorrow night. The services will be held until sundown on the following night, October 11. Fresno lodge, Plant Fifth, has had charge of the arrangements and, as on New Year's, the Parlor Lecture club will be used.

Three services will be held. The first, on Kol Nidre night, one of the most sacred occasions in the Hebrew church, will start at 8 o'clock tomorrow evening. The second will be open at 2 o'clock the following morning and while it will be continuous until sundown, it will really be two services for two programs will be given in the morning and one in the afternoon. Henry H. Hart of San Francisco, who officiated at the New Year services, will officiate at the Yom Kippur services. "The Three Sins" will be his subject for Kol Nidre night. "I Am a Jew" will be the subject of his morning sermon and in the afternoon he will preach on "The Flame of Life."

The reading of the Torah, or Holy

## VERY GLAD THAT HE DECIDED TO TRY IT

Canfield District Man Tells  
of the Plant Juice Bene-  
fits He Received

Among the many people of Southern California who have been benefited by the use of Plant Juice, none are more enthusiastic about the results than Mr. Oregon Akers, who resides in the Canfield district near Bakersfield. Mr. Akers said:

"I had severe stomach and liver trouble for a long time, also suffered greatly from kidney trouble. I had pains in my back and head, I did not rest well at night and got up in the morning as tired as when I went to bed. I read so much of Plant Juice and the many cures it was making that I decided I would try it and see if it would help me, and I must say that from the very first dose that I experienced relief. I now rest well at night and wake refreshed, my appetite is fine and I enjoy my meals. The pains in my back and head are all gone and I feel much better in every way. I am going to continue the use of Plant Juice because I am sure it will entirely cure me. I am glad to recommend it to any one suffering as I did."

Plant Juice has accomplished a great work in California. It has in the past few months restored thousands to health and happiness. No matter if your troubles are chronic and of long standing, and no matter how many things you have tried, or how distressed you may feel, cheer up and try Plant Juice. It is the one remedy that will not fail you. If you have stomach trouble, gas, bloating, indigestion and a feeling of weight after meals, pains in the back or joints, neuralgia, catch cold easily, running nose, dull headaches, biliousness or malaria, poor appetite, impoverished blood, and a first, dragged out feeling in the mornings, you will find that Plant Juice will correct all these and fill you with life and energy. Sold at the San Joaquin Drug Company's store.

## For Bright Eyes and Clear Nose

Remarkable Catarrh Cure  
That Gets Right into the  
Affected Parts and  
Stops Gatherings.

B. S. S. is a Wonder for the Eyes, Nose and Throat.

It is definitely known that catarrh can be cured by the simple process of inoculating the blood with antitoxin remedies that stop inflammation and condition throughout the mucous linings of all the organs of the body. This is done with the famous Swift's Sure Specific, or as it is widely known, S. S. S. It is taken into the blood just as naturally as the most nourishing food. It goes directly to the source of the trouble, cleans the blood, cleanses every organ in the body, through all the veins and arteries, and enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making material to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

You will soon realize the wonderful influence by no means a chance, a decided clearing of the air-passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely catarrh often infects the entire system. You will find S. S. S. on sale at all drug stores.

For special advice on any blood disease write to the Swift Specific Co., 223 Swift Bldg., Atlanta, Ga. Do not delay to get a bottle of S. S. S. from your druggist. Always insist that you want S. S. S. and nothing else. Beware of all attempts to sell you a substitute.

Scroll, will be done by Leon Rosenberg, while Sol Pitzer will read the Haftorah and the Benedictions, taking selections from the book of Deuteronomy and some of the Psalms. The feature of the Yom Kippur service is the prayers for the dead, the main prayer being known as Masha Neshama. Yom Kippur is observed as a day of complete fasting, neither liquids nor solids being taken from one sundown to another.

**MUSICAL PROGRAM**  
A splendid musical program has been arranged for the three services, under the direction of Miss Catherine Bathis. She will be assisted by Miss Marguerite Bathis, alto; John Shismannian, tenor; Maurice Rorplure, bass; Mrs. Elva Miller and Mrs. Rosalind Davies, violinist, and Mrs. C. A. Manheim, Mrs. Rosalind Davies.

Miss Catherine Bathis, who has charge of the musical arrangements for the Atonement Day services.

Miss Marguerite Bathis and Mrs. Miller, pianists.

The following is the musical program for the three services:

THE  
Wonder  
CLOAK & SUIT HOUSE

### SMITH'S JOB STILL HUNG UP ON WALL

District Attorney Awaits  
Opinion From the Attorney General

District Attorney McCormick awaits an opinion from the state attorney general before advising the supervisors as to the legal status of Justice of the Peace G. W. Smith as a township judicial officer. The district attorney adjourned yesterday to the supervisors for the long delay in giving his decision but ascribed it to a misunderstanding of the attorney general's office without whose helping opinion he would not like to give a ruling. The Sacramento office had replied to him that absence without leave from the state for sixty days automatically vacated the office, but as this is not the case under consideration with a supposed leave of absence the reply in no manner enlightens the local situation. A decision awaits a further reply from the attorney general.

### FEARED FOR HER LIFE, AND QUITS HUSBAND

Wife Could Not Recall Dates  
and Places of All Acts  
of Cruelty

On the trial yesterday before Judge Church of the divorce case of Margaretta V. Burgen against Edward V. Burgen, she affirmed that she had been beaten, maltreated and abused by him all of her life, since their marriage on July 2, 1901, that she could not pretend to remember the dates and places of these numerous acts of cruelty. At any rate the frequency of them was such that she feared for her life and for that reason she left him for good and always on April 23, 1913.

The divorce was granted and to her was also awarded the custody of a 9-year-old son. In proof of the allegations of cruel treatment she gave details of numerous acts of cruelty on different occasions when the faced his frequent temper

at Sanger, Taft and McKittick, her residence, October 1, 1910.

At her mother's house at Sanger it was to strike her in the face and to break her glasses; at Taft at her sister's house it was to draw a butcher knife, threaten to cut out her heart and chase her out of the house; at McKittick to jump her head through a window pane and now again to kill her with the butcher knife, at another time to knock her down and kick over the supper table, in their restaurant at McKittick, to seize her by the throat, threaten to kick her out, following her home and again assaulting her by striking her on the nose, and at Taft as late as April 23, 1913, following her to a picture show theater and making a public exhibition of him and her and her companions by dragging her out by the hair.

The Fachschultz Sewing club met yesterday afternoon at the home of Mrs. Fred Ashley on Mariposa street. The afternoon was spent in an informal manner, sewing and conversation chiefly. Later tempting refreshments were served. The guests of honor for the afternoon were Mrs. Lancaster, Mrs. Charles Ashley and Mrs. Musselman of Selma. The members include, Megdanes, Mori, Cardwell, Martens, Ed. Van Buren, York and Miss Avila Carson. The club's next meeting will be with Mrs. York at her home in Fowler.

## Why We Urge You To Use Our Milk

It is because of our knowledge of the excellence of our milk that we urge you to use it in your home. Pure food is so important a matter in the economy of life that various legislative measures have been enacted to insure purity of food products. All measures affecting milk production and all sanitary measures recommended by health authorities are employed by us in producing and handling our milk. The result is a product without a superior in this country in point of richness and purity. It is the kind—the only kind, in fact—that you should use in your home, and it is the only kind you will use after investigating our methods of production and handling. Our dairy is as clean as the cleanest kitchen. Come in and look it over. We know if you do you will become a permanent customer.

## SULZER

One of the most striking features of this whole Sulzer case has been the apologetic tone with which Eastern periodicals of the highest class have been obliged to defend themselves by denouncing Sulzer. Now, Governor Sulzer is obviously a fool, and he has evidently been proved a crook. His final failure to testify means practically his conviction by default. But when journals of character and reputation say so, they meet with scorn of protest from their readers, to which they reply with impeccable logic, but with a phallic chastened spirit. The secret is, of course, that Sulzer's accusers are worse than he is, and so the sympathy of the public, if not with him, is emphatically against them. Which, so far as it goes, is a good symptom. Sulzer is down and out, where he belongs. But there are indications that he may drag Tammany down with him, which is much more important.

It may not generally be remembered that this is the third investigation in which this New York legislature has been engaged. Early in the session, Senator Stillwell was charged with bribery. He was guilty, too, and was subsequently convicted by a jury and sent to Sing Sing. But he was faithful to Tammany, and the Tammany Senate, at its trial, found him not guilty. Later charges were preferred to the Legislature against Justice Cushman of the Supreme court, Justice Cushman's misdeeds, like Governor Sulzer's, had been committed before he took office. But he was faithful to Tammany, so the Tammany legislature "vindicated" him. Governor Sulzer, guilty of any of the same offenses, had deserted Tammany. So they "got" him. No wonder the unanalytic popular mind refuses to respect the judgments of a tribunal like that, even when, in an individual case, its corrupt judgment happens to be against a guilty individual. The judgment is correct enough, but nobody regards it as honest.

Sulzer himself is negligible. He is merely a small man catapulted into a great place and then catapulted out again. His only use is as a missile. His only defense is based on the fact that he was acting as a missile against Tammany. If now, on the rebound, he can still be hurled against the same public enemy, and involve it in his own destruction, it is as good a result as can be hoped.

## WIDOWED BY CRIME

An embezzler yesterday was sentenced to a term in San Quentin, leaving at home a wife and seven children destitute. Presumably the fact that his family is in desperate circumstances will be used as an argument in favor of his parole or release in the near future. However, in this case parole will be opposed by a wealthy corporation from which he stole money, and its opposition may prevent such mercy as would be extended in the ordinary course of justice. Parole, however, is not in theory, and should not be in practice, the means of relief used in circumstances of this kind. Parole should be given convicted men only in cases where they personally deserve it, and not be given because of the unfortunate ones who may happen to be dependent upon them. There is an obvious method by which the state can both do justice and extend mercy in these cases.

It is true that probably the wife and children would continue destitute if the man had not been convicted. But the state can easily afford and should make provision for pensioning the helpless relatives of convicts, and, if convenient, may put it upon the basis of remunerating the convicts for their work and paying the wages to the wife and children.

In this connection the objection raised by union labor organizations to the employment of convicts in useful remunerative labor does not appear to be justified by either economic facts or the principles of equity as between one citizen and another. A convict is entitled to a living. And it is not to be laid as a burden upon the whole state to provide him with food and clothing without in turn requiring him to make some contribution in the way of productive labor. Wherever the objection is raised that the output of convict labor is brought into unfair competition with the products of free labor, the state should by appropriate legislation correct the difficulty; certainly the convicts should be made to work, especially in those cases where the state is called upon not only to provide for them, but to provide for their helpless relatives.

## WHAT BLEASE WANTS

"I want plenty of good horse racing, chicken fighting and honest poker playing in my state," said Governor Blease of South Carolina, in Washington the other day. These things, which Governor Blease says he wants, are perhaps not important enough to "carry" Blease. The governor is fond of talking about the values can regenerate through the resounding cavities of his skull. But it is interesting to contrast these things which Governor Blease wants with some other things which he does not want.

Governor Blease, for instance, does not want his state to be ruled by law, the said, at the governors' conference,

that he believed in ruling "niggers" by private violence outside the law, and that he would not enforce the law on any persons who might "touch a nigger."

This was bad enough, but we had heard nearly as bad from better men—William and Varnum, for instance. And it stopped in talk. But one other thing Governor Blease does not want, and he manifested that by an act, a veto. Governor Blease does not want the children of his state to be educated. The last South Carolina legislature passed a compulsory education law so bold and so final that readers in a civilized state will regard it as a joke. Yet Governor Blease vetoed even that bill. The bill provided that except in certain districts (where the principal ancestors are) no children less than twelve years of age should be employed for wages unless they went to school at least three months in the year. Provided that the law should not apply to any children whose wages were needed for the family support, and provided that it should not apply to any present in the state, unless that present, by affirmative vote, at an election it called for that purpose, should accept it, nor to any present in any county and of the majority in the whole county accepted it, and provided that it should not apply to all certain designated districts (being the factory districts). With these trifling exceptions, every child in South Carolina (if there were any others) would have three months schooling every year, until it was twelve years old.

And Governor Blease vetoed that bill, on the ground that even this small requirement was an unwarranted interference by the state with the liberty of the individual to keep his children ignorant if he liked.

"Horse-racing, chicken fighting and poker—these things Governor Blease wants. The rule of law, and a primary education for the children—these things Governor Blease does not want. Is Governor Blease a civilized man? And, since South Carolina stands for Governor Blease, is South Carolina a civilized state?

BRIEF EDITORIAL  
FANCIES SELECTED

Here Is Opportunity for the North

The resources of all the counties of California should be adequately displayed in the new state building at Exposition park. The Sixth District Agricultural association extends an invitation to the commercial, industrial, educational and social interests in the various counties of California to make such exhibits. Los Angeles is the admitted center of the tourist traffic, and here is the base from which a great majority of tourists and home-seekers search out locations that are their enterprise.

Space in the new state building at Exposition park is absolutely free. No discrimination is exercised against any section or locality. The great interior galleries that present the most valuable resources awaiting development and that offer extraordinary opportunities for profitable investment could not elsewhere more profitably install exhibits illustrating their resources. The northern part of the state, that has looked with some concern upon the tendency of home-seekers to settle south of the Tehachas, well might avail itself of this opportunity to spread before the very eyes it seeks to attract the advantages it has to offer.

To secure full information concerning this opportunity to advertise their advantages, it is not necessary for the counties that are interested to address the State Exposition Building, Exposition Park, Los Angeles—Los Angeles Tribune.

## HOW TO STIMULATE FARM PRODUCTION.

By John T. McCutcheon.

(Copyright 1913, By John T. McCutcheon.)

Inasmuch as the farmers of Holland, France, Germany, and Belgium obtain a far greater yield per acre than the farmers of this country—

Why not import some of them to explain how our own farms may give better results?

And, in order to stimulate our farmers to their most intelligent and industrious efforts, why not have each county present a gold medal to the farmer who raises the biggest crop per acre in the county?

## The WORLD'S MYSTERIES

WHERE WAS THE GARDEN OF EDEN?

Where was the Garden of Eden, the name given to the "earthly paradise" occupied by Adam and Eve before their fall through sin? Many attempts have been made to determine the precise geographical location. The most ancient tradition, going back to Josephus and followed by most of the Church Fathers, locates it in India. But a very popular theory places Eden in Babylonia. Calvin made the Shattal-Arab—formed by the union of the Tigris and the Euphrates—the river that "went out of the garden," but it is now known that the two rivers in ancient times entered the Persian Gulf separately. Frederick Delitzsch, the eminent German Biblical scholar, also places Eden in the country around Babylon and south of it, a country which was so beautiful in its luxuriant vegetation and abundant streams that it was known as "Etar-Dunkh." This region is watered principally by the Euphrates alone, which is here on a higher level than the Tigris. The Pison and the Gihon are identified with two canals, which may originally have been river beds—whose branch out from the Euphrates just below Babylon.

As to the west, according to this view, is Paphlagonia, upon which he was situated and Havilah is thus identified with the portion of the Syrian Desert bordering on "Babylonia," which is known to have been rich in gold. A very natural theory, which must occur to any one reading of Eden must be a very fertile land, a land of plenty, a land of peace, a land of happiness. The Jews, as the Bible says, "Indeed, the original Eden was very likely in heaven, which agrees with the view as held by the Arabs. Gunkel, in his commentary on Genesis, also adopts this view, and connects the stream coming out of Eden with the Milky Way and its four branches."

Though there is an one Babylonian legend of the Garden of Eden with which the Biblical story can be compared as to the cause of the stories of the creation and flood, there are nevertheless points of relationship between it and the Babylonian myth.

An inspection of all the sources referring to the Garden of Eden reveals a great consensus of ideas and many contradictions regarding the future paradise as also concerning the original Garden and the condition of our first parents. Some of the Babylonian authorities appear to identify the paradise of the future with the primeval garden of Eden which is supposed to be still in existence and located somewhere in the distant East. According to some writers it was an earthly abode, considered to have been created before the rest of the world; others make it an adjunct of the subterranean "Sheol," while still others place it in or near Heaven.

On the subject of an ancient writer expresses his views in the following way: "If the Paradise is situated in Palestine, Beth-Shean, in Galilee, is the door; if in Arabia, then Bet-Gerion is the door; and if between the rivers, Danubeus is the door."

In the Talmud the interior of Africa is pointed out as the location of Eden and no less a personage than Alexander the Great is supposed to have found the entrance of Gan Eden in those regions which are inhabited and governed exclusively by women.

On the supposition, therefore, that the narrative in Genesis describes a real country, eastern views have been brought forward in regard to the situation of Eden. Josephus and several of the fathers conceived that Eden was a term denoting the entire region between the Ganges and Nile. Calvin, Huet, Buckart, Wells and others have with slight differences of opinion, located it in the region of the Persian Gulf, Heland, Admet, Hades, Faler, J. P. Smith, in favor of Armenia, near the sources of the Tigris and Euphrates; Le Clerc in favor of the region near Damascus, while even Australia and the North Pole have been suggested. The description of Genesis points unquestionably to Southern Babylonia, but the geographical notions of the writer are confused, and he has complicated his description of Eden by introducing mythological conceptions, found among other peoples, of a great river which forms the source of all the larger streams.

Tomorrow—Thief of Gainsborough's "Duchess."

In a remarkable sermon, referring to recent trials, particularly those of Biggs, Cammell and Huxley, Dr. Baker P. Lee, pastor of Christ Church, yesterday suggested the establishing of a "moral leper colony" on San Clemente Island, as a solution of the problem.

"We have," he said, "a physical leper colony at Molokai. Why not a moral leper colony at Clemente?" Dr. Lee's text was the Seventh Commandment. His method of enforcing it he gave in the following words:

"If men and women choose to violate the Seventh Commandment then, after years of positive, I would have them deported to the island of San Clemente, with the objects of their choice to spend a period of two, five or ten years, as the law should decide, they to live there, each with a couple of acres of land, farming tools, grain and seed, and work or die, as they see fit, with no communication with the mainland."

"Once a week the ship with the yellow flag would bring other offenders with the newspapers and letters, and then with the letter 'X' on their foreheads, they would be sent out into the world and try to be good and honest. Believe me, there are men and women all over this and every other city in the world who are playing with fire now, and who would then stop and think before risking a trip to the island."—Los Angeles Examiner.

# OLD GUARD LOSES FIGHT TO KEEP SOCIALISTS FROM OFFICE

## But Shows Strength of Nearly 2 to 1 and Will Probably Re-elect Haggerty Today

The first big fight between the Socialists and the administration at the fourteenth annual convention of the California State Federation of Labor which is in progress here, was won yesterday by the Socialists when they defeated the passage of a constitutional amendment calling for a full vote on the officers of the organization to be elected at any meeting by 1,308 votes. The amendment was warmly debated by both sides and kept the convention in session until nearly 7 o'clock last night. The defeat of this measure is said to mean that at least a few of the Socialists will be elected to office. It was also said that the measure would not have carried a single office. The Old Guard at the 1913 convention in favor of the measure, while 1,308 votes opposed it. Many of the Socialists, especially those from the southern part of the state, either did not vote or voted in favor of the amendment. Andrew J. Gallagher, president of the San Francisco labor council, led the debate for the administration, and Selig Schulberg of the Newspaper Solidarity of San Francisco led the fight against it.

Daniel P. Haggerty, incumbent, was nominated by the Old Guard to make the fight again for the presidency. He will be opposed by Frank McCarthy, who will have the support of the Socialists. The nominations were held just before the debate on the constitutional amendment, regarding elections. Paul Scharenberg, incumbent, was nominated candidate for the position of Secretary-Treasurer by the administration and will be opposed by the Socialist nominees, Max M. Gruen, of the Butchers' of San Francisco, Patrick Flynn, of Eugene C. P. Gray as the delegate.

**ELECTIONS TODAY.** The elections will be held at 10 o'clock this morning in old Army hall, where the delegates are in session. The fight for the presidency promises to be very warm and bitter and will undoubtedly be a close contest if the Socialists and the Reds stand together and act as one.

Gallagher predicted that Haggerty will come out the winner with a majority of about 5,000 votes. Other labor leaders of the same faction are more or less optimistic regarding the results but all of them believe that the Old Guard will carry their nominees through.

Should Haggerty pull through with the majority of only 5,000 votes, this will be a blow to the present administration because Haggerty at the election last year carried a majority over the Socialists of about 16,000 votes.

It is conceded by those who know conditions on both sides and also from the sentiment expressed yesterday that Scharenberg will carry a heavy majority of votes in the contest for the secretaryship of the Federation. Scharenberg and last night that this would probably be the last time that he would run for the office of secretary, as he wanted to resign about this time next year. Several of the leaders on both sides are against this move on his part, claiming that he is the most able secretary that they have had.

**SOCIALISTS SPLIT.** If the Socialists stick together and work in conjunction with the Reds, there is a big chance, the leaders say, of their being able to make the fight for the presidency a warm one. It is thought that even with the field the way it is that they will carry a few of the vice-presidencies.

At the present time there is a great deal of friction in their ranks due to the jealousy of the northern and southern delegations. The northerners claim that those from the south are trying to control the Socialist party. Many of the strong leaders of the radicals here at the convention are from the south.

In the vote on the constitutional amendment yesterday many of those from the south opposed the northern Socialist and red delegates. It has been said by some that the Reds are practically in a position to control the election today in that they hold the balance of power and that the Socialists as a body can hardly do much without their support.

**VICE-PRESIDENTS NOMINATED.** The candidates for vice-presidents and the districts in which they are running are as follows:

The Administration: No. 1, no nomination; No. 2, no nomination; No. 3, P. D. Lamoureux of this city; No. 4, no nomination; No. 5, H. J. Young of San Jose; No. 6, E. H. Hart of Oakland; No. 7, no nomination; No. 8, no nomination; No. 9, Don Cameron, D. J. Gorman and J. E. Hopkins of San Francisco; No. 10, no nomination.

The Socialists: No. 1, Jacob Beckel of San Diego; No. 2, G. W. McDonald of Los Angeles; No. 3, Ludwig Keller of this city; No. 4, E. J. Vlach of Stockton; No. 5, no nomination; No. 6, R. E. Keyser of Oakland; No. 7, C. W. Herzinger of Richmond; No. 8, Harry Bartley of Vallejo; No. 9, Jack Zimford and J. J. Atchewson of San Francisco; No. 10, W. J. McGinnis of Sacramento.

The election of these men from districts where but one candidate on both tickets has been named is not assured as provision will be made for writing in the names of any person desired in any district other than that of the candidate nominated.

**MRS. EDSON SPEAKS.** Mrs. Katherine Edson, a prominent club woman of Los Angeles, a member of the state board appointed by Governor Johnson for the investigation of the minimum wage scale for women, addressed the delegates while they were waiting for the constitutional committee to render its report late in the afternoon.

The inadequacy of the pay that the women receive for their work was the main theme of her talk. She said that in Los Angeles according to investigations that have been carried on women receive less compensation for the work they do than in any other place in California.

Mrs. Edson further stated that it seemed almost impossible to organize the women of that city, but that she was in favor of organizing them and was doing everything possible to do so. That the workers all over the country must get together and that the employers must let them organize for the benefit of both sides was another statement that she made.

The state board appointed by the governor held its first meeting a short time ago and is now at work investigating conditions along the lines that they were asked to do.

Mrs. Edson stated that the board would not be able to make a report on the minimum wage scale until after a thorough investigation of the working conditions in this state, and that she did not think that that time would come until about next April.

**THEATER PARTY.** About 200 of the delegates, together with their wives and friends, enjoyed a theater party last night at the Princess, where they went in a body at 9 o'clock as the guests of the Fresno labor council.

The evening was spent in jollity with labor men of both sides casting jokes about with one another of more or less personal nature. They all agreed to forget the things they said about one another through the day and what they expected to say today and gave themselves up to fun.

After the elections today, the delegates will be taken on an automobile ride out to Kearney Park in machines furnished them by the various owners about town, through the country of the Fresno Commercial Club, which is planning this end of the entertainment of the delegates to the convention while they are in this city.

This evening a large banquet will be served in their honor in the Old Army hall by the local labor men. Several speeches have been planned which are to be made by the various leaders who are here.

The delegation from Stockton and Sacramento have not forgotten that they were sent here by their constituents to bring home the 1914 convention of the federation and are working on the side to pledge as many votes as possible.

It is expected that when this matter comes up tomorrow that there will be a great deal of rivalry shown as both cities are in to win.

**RESOLUTIONS PASSED.** Among the resolutions that have been submitted during the convention which were passed yesterday are the following:

That a movement be put on foot for the replacement of the Asiatic now working in the theaters.

That the A. P. of L. delegate use every effort possible to bring the 1916 convention of the National Federation to San Francisco and to secure the conventions of all international organizations possible to meet there that same year.

That the conditions in the kitchens of hotels and restaurants be made sanitary.

That the State Federation stands for home rule in taxation (submitted by P. D. Lamoureux of this city).

## PIONEER WOMAN IS LAID TO LAST REST

Many pioneers yesterday morning attended the funeral services for Mrs. Dennis Whitely, a pioneer resident of this county and the first postmistress at Easton. The funeral services were conducted by Rev. Lynch, assistant pastor of the First Presbyterian church and the Eastern Star affiliated at the Interment at the Easton cemetery. Mrs. Whitely was a prominent worker in the Eastern Star and once held the highest office in Fresno. Many beautiful floral pieces surrounded the casket. The pallbearers were selected from among the old residents of the county.

## TO OBSERVE FIRE PREVENTION DAY

While every day is fire prevention day with the Fresno fire department, special observance will be made today as October 9 was set aside by Governor Johnson as cleanup and fire prevention day. Fire Chief Whitehead is in Venice, but Acting Chief Berkholtz will detail firemen to different sections of the city to assist and make suggestions in regard to cleaning up alleys, streets and vacant lots.

## RAISIN DIRECTORS FAVOR SEPARATE PEACH CO.

Do Not Feel That Associated Can Take Up Any New Line of Work  
Postpone Official Action Until Growers Meet In November

The directors of the Associated Raisin Company are not in favor of having that corporation handle peaches, but believe that some other corporation should build up this industry.

This was the personal expression of opinion of the directors given yesterday afternoon at a conference with W. H. Nutting, who is promoting the Gravenor Peach and Raisin Co. No official action was taken at that time, but it is believed that the directors will officially recommend that the peach industry be handled by a separate corporation devoted to the peach growers are called together next month. All the directors were present but two. One of these had already expressed an opinion in accord with those expressed yesterday, but the other believed that the Associated should take over the business. This is the only director who does not favor the separate corporation idea.

The directors do not favor using Associated capital for peaches when the interests of the stockholders in the Associated are interested in raisins only. They also feel that the Associated has all the work it can properly do, handling the raisin crop.

While it is believed that the interests of peach growers could better be served by the organization of a separate corporation, it was suggested at the conference yesterday that a plan of operation might be worked out, which would be of great benefit to both corporations.

As examples of some of the benefits that might accrue, it was pointed out that both companies might operate through the same packing house and ship together, thus making it possible for each firm to handle assorted cars. It was also suggested that the same bookkeeping force might be used for the two companies, but owing to the amount of work necessary, it is probable that the peach company would have its own general manager.

When the peach growers met last Saturday, they decided to postpone action on any general plans for organization until the Associated plan had been heard, but in view of the attitude of the directors it is probable that plans will be outlined very soon. Promotion of the peach packing was not stopped, as far as the securing of members was concerned, and it is expected that an appeal will be made to work new with re-banded vigor in the hope of getting in all the members possible. Every effort will be made to get the company started in time to handle the peach crop next year.

## PIONEER WOMAN IS CALLED BY DEATH

Mrs. Mary Woodson, Mother of Mrs. Robt. McCourt, Dies Here

Following an illness of two years due to the infiltration of advanced age, Mrs. Mary A. Woodson, who would have celebrated her 93rd birthday on the 22nd of this month, died yesterday morning at 6:30 at the home of her daughter, Mrs. Robert McCourt, 121 Clark street. Mrs. Woodson was a pioneer of California, coming to this state by ox-team in the fall of 1855 and locating at Diamond Springs, Placer county. In 1858 Mrs. Woodson moved to a large ranch in San Joaquin county near Lodi.

Mrs. Woodson was a native of West Virginia, having been born in Scott county, near Eastville. She went to Missouri in 1819 and three years later was married to D. A. Woodson. Mrs. Woodson came to Fresno about two years ago to make her home with her daughter.

No funeral services will be held in this city. The body will be sent to Lodi and interred by the side of her husband, who died in 1902. Besides her daughter, Mrs. Woodson is survived by five sons. They are, J. C. Woodson, J. W. Woodson and J. G. Woodson of Lodi, W. L. Woodson of Madras, and H. E. Woodson of Stockton.

## Contest Open to Every Boy and Girl Under the Age of 15 Years

The boy or girl who writes the best short story about Brook's window display during labor week will be given a cash prize of \$5.00. The display is in our Fresno street windows and you will find cards in the window giving the title of the display. The following rules will govern the contest, which will be judged by three prominent labor men of this city.

- First—Contest closes at noon on Friday, October 10. All stories must be in the judges' hands by that time.
  - Second—No story must contain more than 300 words.
  - Third—Write on one side of paper only.
  - Fourth—No one over 15 years of age will be allowed to participate. Write your name and address plainly.
- Winner's name will be published in Sunday's Republican and in Monday's Herald.
- Now boys and girls, sharpen your pencils, put your thinking cap on and go after that bright shining \$5.00 gold piece.
- Don't forget—the display is in our window on Fresno street.

# SOCIETY

The marriage of Miss Hazel Cartwright and William Walker which was solemnized yesterday at high noon in the home of the bride's parents, Senator and Mrs. George Cartwright, is of much interest to the members of the younger social set in Fresno with whom Miss Cartwright was closely associated until the removal of the Cartwright family to the capital city about a year ago.

Mr. and Mrs. Walker are to spend their honeymoon in a motoring tour of the Santa Rosa Valley and Bay regions, and will later return to Sacramento to reside. Miss Dorothy Cartwright of this city and Miss Gertrude Noble, of Visalia, a cousin of the bride were among the out of town guests at the wedding.

Mr. and Mrs. J. C. Finkner have returned from a delightful visit of several weeks in the southern California cities.

Miss Belle Foster returned to her home in Hanford last night after a short shopping sojourn in Fresno, being the guest of Miss Minnie Marshall while in town.

The biggest of home comings was the reunion of the Wednesday club.

membership yesterday afternoon after the long months of separation. President of the club was the occasion celebrated at the home of the new executive, Mrs. H. W. Neely, and a large attendance enjoyed the exchange of summer adventures and experiences cleverly condensed into eight lines of rhyme, built on Mother Goose models.

Mrs. T. Darr was proclaimed champion, and awarded a choice volume of the English from which they were modeled.

The house was profusely decorated with gorgeous LaFrance roses grown in the home gardens of the hostess, and were a beautiful contrast with a wealth of household and other greenery. Hand painted souvene cards were distributed and a feast of dainties served by the genial hostess and her daughter, Miss Marguerite Neely.

The regular study of the season will begin next Wednesday, Mrs. L. R. "The American" Mrs. J. K. Webb will be the hostess at her home on M street.

Mrs. E. Aber has returned from an extended summer outing in the cities of southern California.

Mrs. E. R. Higgins, formerly of

Fresno, came down from San Francisco, for a fall visit with numerous friends here.

Mrs. Florence Reed was the hostess yesterday at the reunion meeting of the Wednesday Afternoon Card Club yesterday, the customary rounds of fifty being played with accumulated seat because of the summer's interim. Auction bids were taken for the room where the card tables were arranged for playing and at the conclusion of the afternoon tempting dainties were dispensed on the card tables. Mrs. W. W. Craycroft was awarded the dainty trophy for holding highest score for the afternoon.

Mrs. Will Dunn, Mrs. Herbert Gundelinger and Mrs. W. W. Sargent had the pleasure of substituting for absent members. The following list comprises the club membership: Mesdames Steel, Harry Craycroft, W. W. Craycroft, James Gearhart, Maude Elliot, Shilton, Deering, W. A. Chory, Ward Marston, Arthur Perkins, J. C. Finkner, Mrs. Jennie Wilson, Miss Edith Shaver, Miss Eugenia Miller, Miss Lillian Dunn.

The initial meeting of the Parlor Lecture Club this afternoon in the celebration of President's Day will be the opening of the season of the week in the newly organized club. Mrs. S. L. Platt the club's new executive will greet the club members for the first time in her new capacity, and a very delightful afternoon is planned. An informal reception will be given by Miss Julia Harris vocal soloist, Miss Eliza Miller, violinist, and Miss Maude Lemick, pianist.

At the home of Mrs. Charles Smith on L street, yesterday afternoon, the members of the League Hour club celebrated their initial "get-together" meeting in "President's Day." Entertainment was provided for the afternoon in the delightful reading from Olive Shiner and also Tenyson, given by Mrs. W. P. Miller in her usual charming way. The conclusion of the day was with musical numbers, a series of tempting dainties, by Miss Marian Smith and Miss Marjorie Guard.

In addition to the club members were present Mr. H. C. Warner, Mrs. R. H. Cockrell, Mrs. James Campbell, of San Francisco.

The club will meet next Wednesday at the home of Mrs. J. C. Cooper on M street.

The teachers of the Washington Grammar school entertained at a delightful little luncheon yesterday in compliment to Mrs. Thomas Tuff, who was Miss Alice Hines, a popular member of the faculty last semester.

The delicious menu was prepared by the teachers in the domestic science rooms of the grammar school and served in the sewing room, the table being decorated with American beauty roses and greenery.

In addition to the members of the faculty, there were present, Mrs. F. M. Lane and Mr. C. C. Starr.

Mr. and Mrs. Tuffs are to make their home on a ranch near Fresno, having moved here recently from Sacramento.

A meeting of the Good Intent Circle of the First Christian Church will be held this afternoon at half past two, at the home of Mrs. C. A. Halbert on Central Avenue.

The Golden Hour Circle of the First Presbyterian Church will meet with Mrs. H. D. Cotton at her home 523 Angus street, on Friday afternoon at half past two.

The Sunshine Club will meet at the home of Mrs. Lydia McIntosh, 125 Calaveras avenue, this afternoon at two o'clock.

Mrs. W. T. Knowles will entertain the members of the congenial little card club which was started last spring, Monday being scheduled for the date of the first playing.

Mr. and Mrs. James Madison and their two daughters are enroute for the winter in San Francisco, attending Girls' high school.

Miss Lucille Nuckolls is spending the winter in San Francisco, attending Girls' high school.

The Pythian Sisters Sewing Club spent a very pleasant afternoon yesterday as the guests of Mrs. A. Butler at her home on O street, following the usual hour of needle work, tempting refreshments were

served, the guests for the afternoon being Mrs. A. M. Baker, Mrs. M. S. Placido, Mr. H. S. Johnson.

The club will be entertained a fortnight hence by Mrs. J. Dean at her home 223 Little street.

Mrs. A. B. Smith has returned to Fresno after a three months' stay in Oakland.

The Ladies Aid Society of the Swedish Lutheran Church will meet at the home of Mrs. M. A. Nordstrom 714 Washington avenue this afternoon at 2 o'clock.

Mrs. Will Sutherland will entertain the members of the Lutheran class at the first Baptist church, at her home on Friday evening Oct. 10th.

The Ladies Aid of the Eastern M. E. church will meet this afternoon at the church. A large attendance is desired as the election of officers will take place, and also plans made for the fall annual dinner.

The regular monthly business meeting of the Epworth League of St. Paul's church will be held on Friday evening, a full attendance of both officers and members is desired.

After the business has been transacted of the young people and their friends will enjoy a card hour. The program for this is being turned over to the third vice president, Miss Effie Tammus. Nothing else need be said to those who have attended former socials given by her department to assure them a pleasant evening.

Mrs. D. Dismukes will entertain the members of the Madison Club, at the celebration of President's Day on Friday afternoon at her home on Ellythe Ave.

One of the most pleasant social functions of the season was the reception given last evening by Dr. Sarah Pugh and Miss Ida Kirkman at the home of the former on Fourth camp avenue in honor of Miss Martha Clapp, whose departure to Mr. Samuel Jordan will be an event of the near future.

The party was so cleverly arranged that Mrs. Clapp was completely surprised to find the house filled with a score of friends when she returned from taking dinner with Miss Kirkman.

The incentive for the gathering was a beautiful shower and the beautiful gifts brought for Miss Clark the high esteem in which she is held by her friends.

One of the amusing features of entertainment was the "Musical Romance."

Miss Tessie Ethridge of Orvis contributed several readings and musical numbers during the evening, which were most heartily received.

With a few well chosen and fitting spoken words, Dr. Pugh presented the guest of honor with a beautiful heart-shaped plaque with ribbon attached to a table in an adjoining room which was filled with beautiful gifts.

The dining table was beautiful in pink and white and the same color scheme was carried out in the refreshments.

To the originally designed place-cards were attached day silver bells, the work of the hostess, Dr. Sarah Pugh, and her following names: Miss Martha Clapp, Ida Kirkman, Susie Reed, Dencie Ethridge, Maude Ethridge, Nan Lee Bourgo of Dinuba, Sophronie Pugh, Mr. and Mrs. Grimsley, Mr. and Mrs. Harrington, Miss Jessie McDonald, Miss Maude McDonald, Messrs. Will Kirkman, Chris Brown, Clarence Wilson of Dinuba, John Thipps, Floyd Clapp and True Ethridge and Harry Ray.

## SUPERVISORS HEAR BOULEVARD PROPOSAL

### May Authorize Securing of Rights of Way After Further Consideration

A tentative proposition of a 160-foot wide boulevard between Fresno city and Clovis was made to the supervisors yesterday in connection with the John G. Rogers' interurban railroad to the mill and flume town.

At Braverman, representing property owners who, he said, favor the project and would give the rights-of-way, broached the subject in a request for an assurance from the board that if the rights of way are secured the county would construct the highway and maintain it at public cost.

The project, however, not assumed such tangible proportions as to warrant the supervisors to give the assurance, and Chairman Jorgensen's suggestion was that a map of the proposed route of the interurban and of the boulevard be prepared to be submitted in connection with a further consideration of the subject. It is proposed to lay the railroad track in the center of the 160-foot boulevard.

In the discussion of the subject, District Attorney McCormick advised the board that under its general powers it could accept these rights-of-way as they do for other public roads and formulate rules to govern the construction and maintenance of the road, and yet doubt was expressed whether the board has the legal right to pro-

ceed without first forming a boulevard district and issuing bonds for constructing and maintaining the highway, this statute not permitting railroad, telephone or telegraph pole obstructions on such boulevard.

Promoter Rogers is proceeding with his work in securing railroad rights of way. The boulevard movement was not included in his original project but is an after-thought suggested by interested property owners on the route, prompted by the thought that the two rights-of-way could be secured at one and the same time.

It was admitted before the supervisors that there is not yet unanimity on the project because of some hesitating property owners, who are doubtful of the attitude of the supervisors.

## TREASURY BALANCES

TOTAL OVER \$540,000

County Has \$214,500 Out On Loan Drawing Interest At 2 Per Cent.

The cash in the treasury was counted yesterday by Supervisor Jorgensen and Deputy County Auditor Barium with the resultant showing:

County balance \$432,349.50  
City balance \$107,650.50  
Total \$540,000.00

This balance was in kinds of money and accounted verified to be as follows:

Gold \$172,655.00  
Silver \$202.00  
Checks \$4.00  
Warrants \$81.56  
Certificates \$146,000.00  
Loans at 2 per cent \$214,500.00  
County Bonds \$2,625.00  
Riverside \$2,625.00  
Mill Creek \$2,625.00  
May \$1,600.00  
Mangonia \$703.37  
Bakersfield \$3,616.23

## SPEED LIMIT FOR AUTO FREIGHT TRUCKS

The speed on county roads of auto freight trucks drawing trail wagons in their wake is to be limited by an ordinance, which Supervisor Jorgensen laid the district attorney yesterday to draft at the earliest opportunity and submit for the board. Mr. Jorgensen says it is shameful how these heavily laden auto trucks with their screeching trailers equally as heavily loaded with bark, gravel, building material and general freight cut up and groove the public roadway, spending as they do ten or twelve miles an hour. The proposed ordinance would limit their speed to five miles an hour.

## ESTIMATE 1913-1914 CITRUS CROP OF STATE, 29,000 CARS

San Joaquin Valley Yield Will Be Best of Any District, Large Southern Districts Have About Half Crop; Quality Good

Although the California citrus crop for the 1913-14 season will be considerably larger than that of the season which is just coming to a close, it will be about 25 to 30 per cent short of the big crop of 1911-12, according to the latest estimates. The total is placed at 29,000 cars of which 26,300 are oranges and 2,700 are lemons.

The San Joaquin Valley district is the only district of any magnitude that is reporting anything like a normal crop. The balance of the district of the state are reporting shortages, based on the 1911-12 crop, ranging from 15 to 50 per cent.

With less than 100 cars of fruit remaining to be shipped out between now and the first of November, the total shipments from the state for the 1913-14 season will be a trifle over 15,000 cars. On October 3, it was estimated that not more than two cars of fruit remained to be shipped, all Valencia. On this basis, it was figured that the orange shipments would amount to 15,772 cars and the lemon shipments would amount to 2,228 cars.

The total shipments for the 1911-12 season were 41,512 cars of oranges and 6,124 cars of lemons, making a total of 47,636 cars. It was estimated that the crop for the season just closing would be 56,000 cars, prior to the frost of last winter.

Weather conditions may have a great deal to do in determining both size and quality between now and the time the season opens but present indications are that the crop will be of good quality, although the sizes may average medium to small. Large sized will probably be scarce.

Usual care given orchards during the past year has done a great deal toward revealing the trees that were hit so hard at the time of the frost last January.

**DISTRICT ESTIMATES.**

The following estimate has been made on the orange crop in the various districts of the state:

**Orange.**

Arizona	1,000
California	26,300
Florida	1,000
Georgia	1,000
Illinois	1,000
Indiana	1,000
Iowa	1,000
Kansas	1,000
Michigan	1,000
Minnesota	1,000
Missouri	1,000
Nebraska	1,000
Nevada	1,000
New York	1,000
North Carolina	1,000
Ohio	1,000
Oklahoma	1,000
Pennsylvania	1,000
Rhode Island	1,000
South Carolina	1,000

## CHRISTIAN CHURCH MEMBERS ELECT OFFICERS

Two Hundred Added to the Membership Roll During Past Year

Bible School Handles Nearly \$1500; Aid Foreign Missions

Officers were elected and reports received at the annual meeting of the First Christian church last night. The past year has been one of the most successful in the history of the church, financially and otherwise, according to the reports submitted.

Officers elected to serve with the old members are as follows:

**Elders:**—S. J. Gibbs, W. A. Marner, M. R. Harris, Rev. W. H. Martin, Rev. G. N. Shilohman, W. L. Williams, S. P. Wakefield, Ed Jones, L. N. Ballard, W. W. Edin, W. A. Swayer, B. S. Greenwood, J. A. Hansen, James Stewart, E. A. Luzzourne, J. N. Landrum, Clerk.

**Deacons:**—Messrs. L. O. Stephens, Ed Jones, Viola Grayson, W. W. Johnson, Harry Chance.

**Trustees:**—W. P. Bowen, H. L. Noll, J. H. Wooten, A. V. McWhirter, C. H. Harding.

More than \$1400 has been collected by the church during the past year, according to the reports. Two thousand of this has gone for the support of missions. The two ministers, Dr. Harvey Breeden and Shirley R. Shaw have made 2151 calls. During the past year 202 members have been added, which with twenty-eight removals and deaths brings the total church members to 512.

The Bible school has collected during the past year \$1254, over half of which has gone for foreign and home missions. Membership has increased nearly 50 per cent and sixty-five of the Bible school students have become members of the church.

Officers elected are as follows: General superintendents at large: Shirley H. Shaw, Fred L. Swartz, B. S. Greenwood; general secretary, Miss Margarette Taylor; general treasurer, Miss Clara Shaw; primary superintendent, Mrs. Mary Westover; secretary, Rev. B. H. Wooten and Miss Alice Tenber; secretary, George Wolff; intermediate superintendent, Mrs. Ruby C. Shaw; secretary, Mrs. W. W. Johnson; senior and adult superintendent, Miss Edith Hume; secretary, Miss Vera Oxburn.

A very comprehensive report of the activities of the Women's league was submitted. The Christian Endeavor society has also improved rapidly. Ninety-seven new members were added to the Christian Women's club during the year. The music committee announced last night that the members had secured the service of Mrs. E. J. Kennedy of San Francisco as contralto soloist.

## NEW METHODIST MINISTER HERE

Rev. Cowgill Arrives to Take Pastorate of M. E. Church

Rev. Frank H. Cowgill, the new minister of the First Methodist church, arrived in this city yesterday afternoon at 1 o'clock, very unexpectedly, as members of his congregation did not look for him until later in the evening. Rev. Cowgill was taken to his parsonage and later in the afternoon gave a short service at the city hall. C. P. Brayton, Rev. Cowgill was accompanied to the city by his son, Frank, who immediately enrolled at the Fresno high school. Rev. Cowgill's older son is attending the University of Southern California, and will come to Fresno in about ten days.

Rev. Cowgill met many members of his congregation last night at the weekly prayer meeting. Following the prayer meeting Rev. Cowgill conferred with the Sunday school board. Rev. Cowgill came to Fresno from Los Angeles, having left his home in St. Paul more than a week ago.

Rev. Cowgill remarked last night that he had visited in Fresno for a few hours in 1907, stopping over here with a carload of St. Paul people who came to the Coast to attend the Methodist conference. He said that he was backed down with raising during his short stop and he never forgot the incident.

Rev. Cowgill is a man of the people.

# California Oil Field News

## GUSHER DAYS RETURN TO FIELD IN MIDWAY

Oil Production Is Immense; Standard Plans to Cur-tail Production

LOS ANGELES, Oct. 8.—The oil gusher days have returned to the Midway-Sunset field, and at present the district is producing over 110,000 barrels per day. This is nearly the output of the entire state in 1907, six years ago, and the production is twice as much as California, the nearest rival, and three times the output of California, Whitaker and La Habra Valley, the Salt Lake field and Ventura combined. There is no oil field in the world at the present time that can compare with this immense production.

The big jump in production in this field during the past sixty days has been due almost entirely to the operations of the Standard Oil Company in section 36, 32-23, and for once the big concern is nearly "swamped." In fact, it is announced that the company has decided to suspend work on all of its drilling wells in the district, at least temporarily.

The Standard's new output here now approximates 40,000 barrels a day, and it is buying about 20,000 barrels more on contract. The two 8-inch lines from this field to the storage farm in Kern River are taxed to their utmost capacity. At the latter point, the company is still building storage and has at present three 500,000-barrel reservoirs under construction.

LAKEVIEW DAYS AGAIN

The days of the famous Lakeview No. 1 are being repeated insofar as the sudden jump in production is concerned, but the burden of taking care of the immense volume of new oil involves on the Standard's part, instead of on the Union-Agency, as was the case when the Lakeview gusher was producing.

Neither is there noted at the present time the least excitement. The field has not been so quiet for three years as it is now. All operations, however, except the big ones, are doing only such work as is absolutely necessary, and there are probably not twenty strings of tools—outside of those of the large concerns—running in the entire district.

And yet, notwithstanding the immense volume of oil now being produced, operators in the field generally seem inclined to look for a renewal of activity by the first of the coming year. There is a feeling of satisfaction that it is the Standard that is "hissed" with the present surplus, it is pointed out that although the entire state's production was nearly 8,000,000 barrels in August, the surplus amounted to only 300,000 barrels, and every bit of it went into the Standard's tanks. Not more than two years ago, when the production of the state amounted to only 7,000,000 barrels a month, the surplus each month approximated 1,000,000 barrels. This shows the constant gain in consumption and it is to this fact that operators point to for confirmation of their opinion.

SURPLUS IS 47,000,000.

The present surplus of 47,000,000 barrels, the contents of which are not excessive, considering the amount of oil being used. Gushers like those of the Standard are temporary affairs at best. They must have an end, and when the end comes oil men will be confronted with an actual shortage of oil.

The small operators, therefore, are "sitting tight" and waiting for the expected to happen. Of course there is the over-present possibility that more gushers will be brought in, for there are no particular "rich spots" in this field and any part of the territory is likely to furnish a gusher at any time. The general curtailing of new work throughout the district, however, lessens the possibility.

## SHELL COMBINE WILL OPEN UP NEW MARKET

Will Dispose of Big Fuel Oil Output; England and Orient Are Buyers

LOS ANGELES, Oct. 8.—The development of an extensive new market for California fuel oil is to follow the invasion of the field by the Royal Dutch-Shell combine. Where one of these disposing centers will be indicated in the destination of the steamship Henry which recently took a cargo from the General Petroleum Line at Los Angeles harbor.

It is probable that until the opening of the Panama Canal, which is a not far distant event, the Orient will continue the chief market for the fuel obtained here. In that section of the world the big European combine is of course perfectly at home, as its operations have been largely centered there for a number of years, and its facilities for distribution are consequently in the best of shape to handle the production of this coast.

A second and equally, if not more important market for oil will be England following the opening of the canal. It is understood that the Shell combine was actuated to a great extent in making its purchases in this state by the fact that the tendency in Great Britain is continually to increase the consumption of fuel oil.

Of late weeks, the first lord of the admiralty, Winston Churchill, devoted himself primarily to a speech before Parliament to the subject of oil in its relation to the British navy. One of the principal points he sought to convince his hearers of was that the policy of the admiralty should be to draw supplies from sources as varied as possible and over sea routes which could be most easily defended. He also spoke of the wonderful greatness of the supply, saying that last year 50,000,000 tons of crude oil was produced and that the quantity consumed was more than 20,000 tons.

"The real question is, not one of quantity, but of price," he said. "It has doubled in the last four years, and while the admiralty has been able to get on without difficulty so far as a system of annual contracts, it will no longer be viable for them to do so. The admiralty must be able to make sure of steady supplies at a steady and reasonable price."

SHELL'S LARGE OUTPUT

The Shell-Royal Dutch combine, since the purchase of the W. K. Turner oil field in California, in addition to the California Oilfield, Limited, has now under its control 15,000 barrels a day. Its monthly output is only about 100,000 barrels short of the General Petroleum Company's and the Santa Fe Petroleum and there is every prospect that the production of the European combine will be increased in the near future by the purchase of additional properties.

Ground is strengthening for the belief that the General Petroleum Company, or its production at least, will pass to the hands of the Shell combine. Eugene de Sabin, Jr., president of the former company, is reported to have left New York for Europe to join Captain Barnason, general manager of the company, in London. Barnason has been in that city for several months, and it is definitely established that he has been negotiating with the Shell-Royal Dutch combine.

It is believed that the sudden departure of de Sabin from New York portends that matters have come to a head in the negotiations. A great deal of speculation is being indulged in concerning how the outcome of the deal will affect the Union Oil Company, on the control of which the General Petroleum holds an option.

The Shell combine's investments in this state now amount to over \$6,000,000, of which about \$2,500,000 is cash, and \$11,000,000 stock and bonds.

## THIS INCLUDES THE DEAL FOR THE W. K. TURNER OIL FIELD, OF WHICH AUTHORITY ANNOUNCED HAS BEEN MADE.

If a deal for the Union Oil Company and the General Petroleum is closed, it is possible that the investments will run up to \$50,000,000 or \$60,000,000. This would include the cost of distributing stations for gasoline, already erected at points on the coast, or proposed expenditures on pipe lines, etc.

Advices from London are that the exchange of shares has been practically completed in the California oilfield. The deal, The Petroleum Review of September 29 says: "The secretary of the California Oilfield, Limited, announces that he has been notified by holders of 55,555 shares in the company of their readiness to exchange their shares for 'Shell' shares on the terms already announced, and had received transfers accordingly. This figure, together with the 5,000 directors' qualifications shares which will also be transferred has been deemed by the Anglo-Saxon Petroleum Company, Limited, to represent a sufficient portion of the total shareholders of the company to satisfy the directors of their offer and the exchange will therefore be carried into execution immediately."

## TO EXTEND WATER LINES IN SUNSET

Western Water Company to Expend \$65,000 in Furnishing Water to Newer Portion of Oilfield

TAF, Oct. 8.—Although the general opinion of many has been that the Western Water Company's lines were complete throughout the West Side fields, the increase in the demand for water from its wells necessitated the contracting for material for another line to the Sunset field to extend in the neighborhood of \$65,000.

The line, a 8-inch string about 10 miles long is to start from the 12-inch main of the company, where it crosses the north boundary of section 3, 32-21, near the property of the Boston Pacific Company. From this connecting point it will run in a southerly direction to a 10,000-barrel storage tank to be erected by the Lacey Manufacturing Company on the southwest corner of section 9, 32-23. From the tank the line will run south one mile along the west line of section 16, 32-24, thence north to the northeast corner of section 27, 32-21, thence south to the center of the north boundary of section 31, 12-23, then west to the northwest corner of the section.

The line will more than double the capacity to the Sunset territory, the line which was in two years ago being only 10 inches in diameter. "Three carloads of pipe arrived this morning, as part of the contract made with the Lacey Manufacturing Company. The work of laying the line has been contracted to the Virginia Pipe Line Company of Taft.

## DEVELOPMENT NEWS OF MIDWAY FIELDS

TAF, Oct. 8.—Another big oil sand, just a little bit deeper than any other found in the North Midway, and which promises to cause active drilling by a number of companies because of wells about 100 feet in the upper strata, has been encountered by Supt. Feather, in the center of the No. 8 well, on section 6, 32-23. Feather was not satisfied in the increasing of the company's property more than 100 per cent in the past three months, and was deepening the No. 8 well to see what was to be found below the regular sand of about 24 feet. Feather, in the center of the No. 8 well, on section 6, 32-23, found the bit went in 72 feet, almost blindly, the bit went in 10 feet of almost entirely new sand which jumped the production, from less than 50 barrels a day to nearly 200.

If there was a prettier and steadier stream of oil issued from a lead line in the Midway, it has not been in the times of the West Side operators.

As all the other wells of the United and most of the neighboring companies have merely touched the top sands, this deeper sand without intervening water to shut off, comes as a big boost for the North Midway. The stock of the United has been having a slight relapse, but with this find indications are that it will now forge ahead.

The rig for the No. 8 well of the Eagle Creek Oil Company, on section 31, 32-23, is under way with O. D. Goode in charge of the contract of putting up the timbers. The rig is being erected just west of the King Lumber Company's office. It is a 100-foot combination derrick, which blocks the former road which led to the North Midway camp.

The Midway Royal Petroleum Company's new rig, on section 19, 32-23, was finished Saturday by O. D. Goode. It is a 100-foot combination derrick, and standard derrick.

## OIL BREVITIES OF FIELD IN MARICOPA

MARICOPA, Oct. 8.—Clarence J. Berry of Los Angeles and Frank Keller of San Francisco spent Sunday and Monday in Maricopa on a tour of inspection of their oil properties in the Sunset and Midway fields. Supt. Lester Rodgers of the Ethel D. Oil Company escorted them over the properties in the Sunset field and both were well pleased with the showing made in the past six months since Mr. Berry left for Europe. The new rig was started up at the time of their first visit after having flowed for over a week. Supt. Fred Owens of the Mammoth properties in the North Midway took the party to Fellows on Sunday and spent a part of the day at the Mammoth and Ethel D. Oil Company's lease. Mr. Keller left Monday afternoon for Fresno where they will spend several days looking after the former's business in that city.

Supt. Lester Rodgers of the Ethel D. Oil Company is preparing to start drilling a new well on section 36, 32-24. The derrick for this well was completed by the contractors last week and a crew is now busy rigging up. The well will be known as No. 25 and will be drilled with standard tools. It will be spudded in some time in the coming week.

Well No. 4 of the Lakeview No. 2 Oil Co. will be started within the next few days. The derrick was finished yesterday and a crew was set to work rigging up. The well will be drilled with a rotary outfit and a rotary disc bit will be used.

The No. 3 well, which was cemented some time ago, is again troubled with water which stands near the top of the hole. Efforts to make the water out were without avail and it will now be necessary to pull the pipe and

CHAMPION ATHLETE IS NAMED IN DIVORCE SUIT

HONOLULU, Oct. 8.—Duke Kahana-moku, Olympic and world's champion short distance swimmer, was named today as co-respondent in a divorce suit filed by Neel Deery, technologist at the experiment station of the Hawaiian Sugar Planters' Association.

Kahanamoku is enroute to San Francisco, where he is entered in the swimming races to be held there during the Portland festival, October 22-23. Mrs. Deery, who is an English woman, is supposed to be in England.

RELIGIOUS MANIA CAUSES FOUR FATALITIES IN ENGLAND

LIVERPOOL, Oct. 8.—In a fit of religious mania today, a youthful church worker here, William McDonald, ran amuck with a loaded revolver and killed three of his fellow church-workers. He then committed suicide. The four young people were active workers for a sect known as the "Church of Humanity."

## \$40 In Value In the Miami Fully Equipped Bicycle At \$30

This is the most wonderful bicycle value ever given. We are selling a Miami bicycle for \$30. It is exactly like bicycles sold usually at \$40. It has mud guards, coaster brake, roller chain, double bar frame, large motor seat, motor pedals, etc.

If you need a bicycle, come in and see this easy riding wheel at this low price. It is highest value for the money.

MEPHISTO TIRES \$4.50 IN VALUE FOR \$3.50

Specially made tires, the best of all. The vulcanized tread gives them the greatest wear. They are reinforced at the joint where the greatest wear comes. This is the greatest tire value ever offered. They are the most economical to buy.

THOR MOTORCYCLES—REPAIRING AND EXTRAS.

**Chambille Cycle Co.** 1231 K St.

struck, mauling, shrike something struck him behind the shoulders like a battering ram and he flashed to the earth, face down, with Phil's knees boring between the shoulder blades and the muscular fingers of the frenzied quarter back twining themselves convulsively about the throat of the victim.

At the same time Phil became suddenly conscious of an increase in the crowd—a multiplication of the shouts and yells. Then something swept heavily, smashing over him and his quarry, and as he sank across the form of the latter things began to grow dark.

He was aware of what happened to him, of the fall, of the blows, of the humiliation and pride, but this was the blind headlong rush of the team—the drive of the irresistible wedge—sweeping all before it and clearing the roadway of its human chaff.

He realized that he had nailed him, that he hoped that Owen wasn't dead and not everything was a total loss. He heard vaguely that the other, maddened voices of gruff menace and sharp command were. He didn't tremble until afterward, when he was helped to his feet, none the worse but for numerous bumps and a stiff, dizzy feeling, that he had seen the values of a squad of policemen culled from a station house a couple of blocks above the college. To be perfectly frank, that was not the first time the officers had been needed to quell abnormal disturbances on the part of the student body, and as "practice makes perfect," he was not at all surprised to see the remarkable efficiency, dispersing the howling braggadocios in incredibly short order.

A few arrests were made, among them Phil's captive, and some patients were taken into the college hospital, where the doctors performed amputations, patchwork, aided by some medical students of whom no doubtless, also had assisted more strenuously to produce the damage they were so greatly requiring.

Twelin, who had mysteriously disappeared during the melee, turned up while Owens' head was being dressed and he was asked, according Vern's insistence that Owen had been giving in his own distant home should return with them, promised that the car should be driven with the utmost smoothness. Upon that condition the doctors consented to release him, stipulating the further proviso that the patient remain in the hospital, preferably permanent, for as many hours as the rest of the day permitted.

"By God, he really was splendid," said

Just as Flit was about to slide to Owen's assistance, some blackguard further in the throng, taken spotting the innominate can as the center of a stubborn of foemen, suddenly swung over a heavy walking stick. The next end, in the heartless delirium of but, the brutal aggressor had reared forward and brought the handle of the bludgeon with a stinging thud down upon the bare, w

# What the Piano Can Do for You

1

WHEN A FELLER NEEDS A FRIEND.

EMPEROR SHIPPING TO START ABOUT OCTOBER 15

Expect Total Crop Will Be Between 400 and 500 Cars  
Less Than Hundred Cars of Malagas Remaining In District

The shipping of Emperor grapes out of this district will start about the 15th of this month. While the crop is much shorter than last year, it is estimated that the total movement will be between 400 and 500 cars. The fruit is said to be of good quality. The prices which have been ranging from \$10 to \$15 a ton, have not changed in the past two or three weeks and shippers do not look for any change either upward or downward.

The shipment of Emperors in crates will last until about the 1st of the month, but Emperors, shipped in drums, will be moved out for the holiday trade.

Less than a hundred cars of Malagas remain to be moved out of this district, in the opinion of shippers, but it is expected that the fruit will be held back so that the bulk of it will not be sent out until about the first of November.

The fruit shipments of the past week have been about 10 or 15 cars a day, but this week saw a decided falling off and from now on it is expected that the fruit shipments will not be more than four or five cars a day.

Prices this week on Malagas are advancing and this average for the past two days has been about \$1,100 a car. Last week the average was about \$1,000 a car. The prices took quite a drop when the Tokays reached the eastern markets in large quantities, but not nearly as much as was expected. It is asserted that the movement of Tokays is almost over and that for the balance of the season, the returns on Malagas will be exceptionally good.

You Pay Only 15% The Land Pays the Rest

This Land Is Planted To Peach Trees Just Coming Into Bearing

Here is the greatest proposition that was ever offered you. Here is an opportunity to buy land that will pay for itself. And you don't have to wait for it to begin. It begins right away. The land is rich, as rich as it can be. It is planted to peach trees, strong, sturdy, thrifty trees that are just beginning to bear. They are trees 2, 3 and 4 years of age. In this fertile soil they grow rapidly and the production is enormous.

All you have to pay is 15 per cent down. The trees themselves will pay for the rest of it. Some idea of what sort of peaches they are can be gained from the fact that the first prize was awarded last year at the County Fair to peaches from this section.

Can you afford to overlook a proposition of this kind? It is virtually giving you the land, for in a short time the trees will be returning the annual payment many times over each year.

Peaches from this District Won First Prize at the Fair Last Year!

Sycamore Ranch

Not Far From Fresno—Has First Water Right—Values Increasing Fast—Always Plenty of Water

This land is in Sycamore Ranch, less than a dozen miles from Fresno. The soil is wonderfully rich. The district is one that has just begun to be subdivided. The first railroad to open up this section is just now being built.

Values are going to increase at an astonishing rate. It will not be long until this land will be selling at several times its present valuation. The large ranches that are being cut up and the great interest being manifested in this section has already had the effect of raising values.

Now is the best time to buy and certainly a more generous proposition was never offered than the one that we are offering you right now.

Are you going to be benefited by it?

Here is another big feature about this land. That is the water right. It all possesses first water rights. And there is an abundance of water at all times. This is one of the most important considerations.

The canal that supplies the water flows through Sycamore Ranch and brings all of the water that can be used. Canals and laterals have been built.

This section is destined to be one of the finest fruit growing districts of the valley, for the quality is unsurpassed and the yield is always bounteous. Those who engage in this business are certain of good returns every year.

Let us tell you all about this land and show it to you. You must certainly be interested in this liberal offer.

MORE GIRLS THAN BOYS LODGED IN PARENTAL SCHOOL

Probation Officer Sessions reports an unexpected state of affairs at the parental school—the housing accommodations of which were provided on the theory of a proportion of inmates of ten to fifteen boys to five girls. Now the very reverse has come about, and there are at this time six inmates five boys to ten girls and to accommodate the latter there has been an ex-

change to place the girls in the boys' dormitory and vice versa. The unusual proportion at this time is caused by the number of girls held in detention as witnesses in cases pending in court.

ELECT VICKERS TO EXECUTIVE BOARD

T. C. Vickers, business agent of the Fresno Building Trades Council, and delegate to the International convention of Electrical Workers in Boston, was re-elected a member of the executive board at the annual meeting, according to a telegram received from Vickers yesterday. The local man is now on his way home and expects to arrive the forepart of next week.

MADE INSANE BY INTENSE READING UPON THAW CASE

Millwright William Anderson Ravens Incidentally On Perpetual Motion

Intense reading of the lurid literature touching upon the Thaw case, books and newspaper clippings in quantity on the subject having been found in his custody, is ascribed as the contributing cause of the mental breakdown of William Anderson, aged 25, who has been employed as a millwright at the Big Creek dam works and was arrested for insanity last Sunday by Deputy Sheriff Kellogg. Anderson and Russell, upon their report that he is subject to acute mania Judge Austin ordered him committed to the asylum. From the unfortunate the doctors learned little concerning his antecedents, he being restless, excitable and lachrymose according to variable humors. While in the ward for the insane, he has been raving on the subject of perpetual motion, claiming to be near the discovery of the principle. The patient, scarcely remembered anything, besides being depressed, stared vacantly or cried hysterically as the mood moved him.

MARTIN'S CHANNELS ARE GAINING FAME

The fame of Supervisor Martin's concrete water channels to be placed at stream forks as a substitute for the more costly wooden bridges is spreading. Many such concrete wagon channels were placed recently at various crossings in Vanhook Canyon. Mention of this innovation was made in engineering publications based on the publicity in The Republican. The supervisor received yesterday two requests from cement product manufacturing companies asking for technical blue prints of the channels, driveways with specifications. The requests have been complied with.

VISITING THE SCHOOLS ON THE WEST SIDE

Superintendent Lindsay and Field Deputy Bales are on the West Side to visit the schools. Lindsay will visit the district schools at Coalinga and in the vicinity. Mr. Lindsay will advise with the trustees of the Stanley district as to a course with regard to its bond issue of \$5000 at 8 per cent which, having been sold to Torrance, McLaughlin & Co. of Los Angeles for \$55,000, they refuse now to accept. Their reason is that the sale of the bonds was subsequent to the date in August when the law went in operation fixing 8 per cent as the maximum payable interest on school bonds.

PARTNERS AT OUTS ON DIVIDING ASSETS

W. E. Martin who entered into partnership in 1911 with John E. New to plant and raise orange groves, took bright, and counting and performance of the agreement for the division of assets when they dissolved in March, 1913. Instead of carrying out the agreement, Martin says, New appropriated all the property, disposed of the portion of it, the agreement, it is claimed, was that New should take all stock, pay Martin for money advanced to erect pumping plant and well, sell all remaining assets and divide the proceeds.

RUMOR OF DEAL FOR GENERAL PETROLEUM

SAN FRANCISCO, Oct. 8.—Again a rumor of a deal for the General Petroleum Co. is being circulated in financial circles, and it is said the only thing preventing the consummation of the sale is the matter of price. It is rumored that the foreign corporation owned by Eugene A. Sabla, Jr., president of the California company, \$10 per share prior to his departure for New York, where it is said he will sail for England to join Captain John Burness, who is now there and supposedly negotiating the deal. Da Sabla is holding out for \$50.

A recent statement Da Sabla placed the assets of General Petroleum at approximately \$40,000,000, while the debt, both funded and floating, amounted to about \$20,000,000. This would leave \$20,000,000 to distribute among 400,000 shares of stock, provided all the \$20,000,000 notes are converted.

In commenting today on the likelihood of this deal going through, a prominent oil man said: "Up to the present the Dutch-Schell has purchased three producing oil properties at a cost of \$16,250,000. This shows that the combine is in the California oil business to stay. The consummation of this deal would give the Dutch-Schell control of oil properties in this state having aggregate assets of more than \$121,000,000. The last report assets of approximately \$10,000,000. The price paid for California Oilfields, Limited, W. K. Oil and Turner Oil Company was \$16,250,000, which probably represents pretty well the value of the properties."

CITIES MUST PAY FOR COLLECTION OF TAXES

Supervisors Advised to Deduct the Expense From Money On Hand

Assistant District Attorney M. G. Gahlaner advised the supervisors yesterday that the expenses reported by County Tax Collector A. B. Smith as incurred by reason of his collection of the taxes for the seven incorporated towns in the county are proper charges against said cities and should be placed in the salary fund of the county by order of the board. The latter is informed further that with the filing of the itemized statement showing the additional expenses by reason of such collection of incorporated municipal taxes, it is incumbent upon it to make an order deducting such additional expense from the taxes of the municipality still in the hands of the collector or to transfer such deducted expense to the salary fund. The total of such deducted expenses must, however, not exceed 1 per cent on the first \$25,000, nor one quarter of 1 per cent for all excess above the first \$25,000 collected.

GERMAN WARSHIPS FOR WORLD'S FAIR OPENING

BERLIN, Oct. 8.—An invitation to the German government to send German warships to attend the opening of the opening of the Panama canal was received from Washington at the United States embassy here today. Acceptance of the invitation by Germany is assured.

Smooth, Hairless Skin Follows This Treatment

(Toilet Tip)  
Among the home-beauty helps, none perhaps is more important than that which will free the skin from obnoxious hairy growths. A simple method to rid the skin of unsightly hairs is to make a paste by mixing powdered borax with water and applying for about 2 minutes, then rubbing off. With it comes every bit of hair and when the skin is washed, it will be firm and free from blemish. Results are more satisfactory if the delatone is bought in an original package.

The Home Beauty Parlor by Betty Dean

Janet: Stop that falling hair right away, for it irritates the scalp. The constant scratching you speak of may be dangerous. Finger nails often poison the skin. Conquer the dandruff at once with this simple rule—made by dissolving one ounce of quinine in one half pint cold water. This is a refreshing treatment, excellent for preventing that irritated scalp. It will not change the natural color, but will lighten it and add life and freshness.

Valerie: I do not approve radical measures for beautifying the eyes. Here is a home-made remedy which has done wonders for weak, inflamed, watery eyes. Dissolve a ounce of erythron in a pint of water, put two or three drops in each eye, two or three times a day. This will enable you to put off the evil hour of wearing glasses and besides being soothing and restful to the vision will emphasize the expression and give sparkle and charm to the eyes.

Maggie O.: I never recommend talcum powder for the face—nor, indeed, is there any ordinary face powder which will cover all the demands. The only thing I can heartily recommend is surmah, which I have used on the recommendation of Turkish beauty authorities. It is a liquid beautifier which is also a good tonic for the skin, protecting it, while at the same time it makes you look fair, clear and radiant. Get 4 ounces surmah from the druggist, mix in one half pint hot water and add two teaspoonfuls of glycerine. This will give you enough to last a long time, and is the best way to keep the complexion youthful and natural with a healthy bloom. The application is made for several hours time.

Sue L.: I don't blame you for not being enthusiastic about dieting to reduce your flesh. Many doctors say it is dangerous besides being a nuisance. It may reduce your vitality and the remedy be worse than the disease. Instead of this radical method try the Siphon. This is easily taken, and is

RAILROAD TO RETIRE OLD INDEBTEDNESS

Directors of Interurban Meet; Advise for Meeting Dec. 18th

A short session of the directors of the Fresno, Hanford & Summit Lake Railway Company was held yesterday afternoon at which it was decided to advertise for a meeting of the stockholders for December 18th, at which the matter of retiring the old indebtedness with preferred stock would be taken up. The advertisement for the meeting and the meeting itself is only in accordance with the law as the majority of these holding debts against the company have agreed to take preferred stock. It was also announced at the meeting that the written order of the railroad commission for the permission to issue \$25,000 preferred stock had been received. It was announced at a previous meeting that the commission would grant the request to issue preferred stock.

BARN ON N STREET DESTROYED BY FIRE

A barn owned by Mrs. A. R. Hilton in the rear of the residence at 1520 N street was burned to the ground last night at 7 o'clock from fire of unknown origin. The damage amounted to about \$1,000. Mrs. Hilton had old furniture stored in the lower part of the barn and hay in the loft. The fire was in the rear of the house occupied by Mrs. J. H. Winn. Her children discovered the blaze when they went to the back porch. The fire department responded to the alarm and saved the adjoining property.

## MRS. FISKE APPEARS IN PHOTOPLAY AT FRESNO PHOTO THEATER

Acts for Great Picture Film  
In "Tess of the  
D'Urbervilles"

This great actress repeats before the camera the success she achieved on the stage. The unfolding of the absorbing story of "Thomas Hardy" will be followed by a silence that in itself will be the best indication of the spell that will be thrown over the entire house by this great photo play drama.

There will be a steady pull at the heart strings, lightened on rare occasions by flashes of humor, as for instance in the first part when the Durberfields are convinced of their descent from the laughing family of the D'Urbervilles. Again at the wedding of Tess and the Angel Clare, there is laughter through the tears as the three girl friends of the bride—and uninvited rivals—refuse to speak to her. The interest of the picture will be of course centered about Mrs. Fiske. Her admirers will not be disappointed. True it is that her appealing voice will not be heard, but there will remain the art of revealing, through expression, the tumult that surges in the bosom. The face of Tess may be as a piece of stone, but the eyes tell the whole story. You see, you feel, the tears. There is a multiplicity of strong situations, one of the most pathetic is where Tess, forbidden by her father to go for a clergyman that her unnamed child may not be baptized, awakes her sisters and in a lone attic, herself performs a ceremony.

One of the most dramatic scenes is where the husband of Tess, informed by his wife on the evening of the wedding day of her past in reply to a sudden burst of confidence on his part, flies into a rage and later tells as a by the fire, in an unambitious stroll he dreams that Tess is dead. He goes to the bridal chamber and finds Tess on the couch at the head of the bed. Picking her up in his arms he carries her downstairs, lays her by the fire, puts a candle on each side of her and then returns to his couch. The woman is to be the bride in name only arises from the floor and places a mantle over the sleeping figure. The fifth reel is the strongest of all. It is where Tess, deserted and her family in want, is again in the grasp of Alec D'Urberville, the betrayer, she is sought out by her husband, now changed of mind. It is too late. Tess goes to the room of D'Urberville. She returns and tells Clare that she has killed him. Clare takes his wife to the Temple of the Priests where the two are found in each others arms the next morning by the officers of the law. The support of Mrs. Fiske is uniformly excellent. Mr. Bond plays the part of Angel Clare. David Torrence is strong as Alec D'Urberville. The father and mother of Tess are played by John Stepping and Mary Barker. They are the chief figures in the first reel. It is one of the tragedies of the screen that this was the first appearance of Mrs. Barker in a picture and that she did not live to see projected, the film in which is preserved a record of the drama in which she appeared in every speaking performance.

Taken altogether, considering the story, the acting, the backgrounds and the photography, this picture is one of the greatest ever made. We must thank Daniel Frohman that the filming of the world renowned actress in this great picture was made possible, and also thanks to the Turner and Dubuque Circuit that it was possible to produce this colossal and expensive production in this city, where it will be shown at the Fresno Photo Theater, Thursday, Friday and Saturday. Admission for this great attraction will be 10 and 20 cents. Evening performances will start promptly at 8:45, 8:15 and 8:15. Matinees 12:45, 2:15, 3:45, 5:15.

## Mrs. Scott Wears Gorgeous Gown in Wonderful Drama "Mary Magdalene"

MRS. SCOTT IN "MARY MAGDALENE"—BARTON TOMORROW NIGHT.

Three thousand five hundred peacock eyes. To use the vernacular, that is some eyes, even if they are peacock eyes. And that is the exact number in the marvelous gown worn by Mrs. A. W. Scott in the first act of "Mary Magdalene," which will be presented at the Barton tomorrow night.

This wonderful costume is made up entirely of peacock feathers imported especially by Mrs. Scott. History tells us that Mary of Magdala was a proud and haughty courtesan, therefore it was fitting that her taste should run to peacock feathers when it came to personal adornment. "Mary Magdalene" has made of this character a queenly woman of sin, intelligent, cynical and contemptuous, and Mrs. Scott's interpretation of the role is the most realistic presentation the stage has produced in many a long day, according to dramatic writers who should know what they are talking about.

The women of the days of Mary Magdalene knew how to dress and array themselves in dazzling costumes that are not known in this age. In fact, this is said by some to be the age of "modesty" or to be more exact, "unadorned attire," but be that as it may, in Mary Magdalene's time it seemed to be the fashion to wear plenty of "glad rags," and that is just what one sees in Mrs. Scott's portrayal of Mary Magdalene.

There are important features in every play. The most important of which is the acting. But costumes command our attention also, and in this drama, which has been termed "the world's greatest problem" play, it is interesting to observe what was considered as

the height of fashion in female attire some twenty centuries ago. And if you are interested in such things there will be plenty to observe in "Mary Magdalene," which is coming to the Barton Friday night.

### "The Traffic"

The awful truth about white slavery—the eminent and vital problem of today—is depicted in "The Traffic," the four-act drama that comes to the Barton next Saturday and Sunday nights. Not less than six curtain calls have expressed the approval of the public at every presentation of the play, and the critics, without exception, have published words of commendation about it. That the people are both ready and eager for truth visualized and enacted upon the stage is made apparent in the enormous attendance at San Francisco and Los Angeles since this four-act play, acted by a picked company of most competent players and staged in the most perfect manner, has been on view in the above

cities. Nana Bryant, the beautiful young emotional actress; John C. Livingsone, a sterling young actor of rare artistry; Laura Adams, Claire Sinclair; Lois Boston and the others of a well-balanced organization are playing "The Traffic" in a way fully keeping with the dramatic excellence of the play and the high motive of its author and producer. The seat sale is now open.

### "Officer 666"

"Officer 666," the play that has been written and talked about more than any other theatrical production launched in the amusement field in many years, will be presented at the Barton next Tuesday evening, October 14. The piece, by Augustin Macfuth, is full of extraordinary surprises and clean fun that keeps its audience in a constantly expectant attitude and almost continuous laughter. It is, in fact, a melodramatic farce quite out of the ordinary, and furnishes more thrills and tense moments than one can realize.

Scene from "The Traffic"—Barton Saturday and Sunday nights.

## LIGHT OPERA QUARTET IN FINE MUSICAL ACT AT PRINCESS

Every class of vaudeville talent was represented in the program at the Princess Theater last night and the result is a remarkably pleasing and well balanced bill. The acts range from grand opera to comedy sketch with popular musical and singing and talking acts sandwiched between. The great feature of the bill is the Light Opera Quartet. This act is an unusually good vocal quartet. For presentation of operatic music in vaudeville, the delightful melodies and harmonies of "Hallelujah" (Hallelujah Girl) furnish the musical material and a Gypsy scene is used for a setting. In the quartet are Elvin Rand, soprano; Theresa Sweeney, contralto; Oscar Welch, tenor, and Jack Huston, baritone. Mr. Welch is the valued member of the Morris Hartman Company several seasons ago.

One of the most commendable acts on the program is a two-act play entitled, "The Newsboys' Debt," featuring one of the smallest actresses on the stage today, Little Miss Dulce Cooper. She goes through the performance with her mind on but one thing, which is her part as the newsboy. She is very cute, and best of all she has a voice that can be easily understood. Dulce's support is one of the best and helps to make this an exceptionally strong and pleasing play.

Eddie Ellis has a turn that is an innovation in vaudeville. It conforms to the latest fad of doing characters in "straight" or without make-up and costume. Ellis singing and talking is of the negro minstrel variety without the black and gaudy costumes, and although more difficult of accomplishment he makes one almost forget that one is not looking at the conventional black face comedian. He sings "The Long Lost Chord," "Last Night Was the End of the World," and "I'm Going Back to Carolina," all good songs well sung.

The chief attraction of Buster Harmon's entertaining period is his dramatic recitation of the race track, "The Ride of Jimmy McCabe." He sings a clever parody version of "I'm Getting Used to It," and chatters a few new ones which are the source of continued laughter.

Oliver Wilson, who is a talented artist on the saxophone, puts life into his work by drawing to her own music. She plays classic and popular melodies with equal ability. Her numbers are "American Patrol," "Blue-eyed Baby" and "Barcarolle from Tales of Hoffman."

Delegates to the California State Federation of Labor convention were entertained last evening, and among the pictures shown was a special feature subject which was greatly appreciated by the labor representatives.

As emanating from a single evening's entertainment.

It is a clean play, presented by an admirable company of comedians and comedienne and played with a rapidity that threatens to break the speed limit. It is filled to the brim with logical tricks and swiftly moving surprises that keep the interest of the auditor at every pitch throughout its enactment. In short, it is a charming force, charmingly presented and as full of laughs as the small boy is of ice cream after coming home from a church festival.

The seat sale opens next Saturday morning at 9 o'clock.

# New York Turns Tables On Athletics in Tenth

## PITCHER CHRISTY MATHEWSON HERO OF GREAT 3 TO 0 FIGHT

New York Twirler Duplicates Feat of 1912 Against the Boston Red Sox; Wins Own Game With Ripping Single In Tenth Inning

PHILADELPHIA, Oct. 8.—Christy Mathewson, master manipulator of the baseball, led the New York Giants to victory at Shibe Park today when he shut out the Philadelphia Athletics in a ten-inning battle by a 3 to 0 score in the second game of the world's series.

Here of a decade of league and world's championship play, the famous veteran rose to the highest pinnacle of his diamond career by an exhibition of all around play that wrung volleys of applause from the 20,000 Athletic supporters, who were pressed in the stands and bleachers expecting to witness a second triumph for the standard bearer of the American flag. His score experts will point to their figures to prove that eleven other Giants were instrumental in winning the second contest of the series, but the Philadelphia fans who filed sadly out of the park spoke only of Mathewson.

### MATHEWSON HERO

For a little over two hours and twenty minutes the men whose names were sung by thousands of fans after the final game against the Boston Red Sox in their world's series of 1912, turned back the hard-hitting Athletics without the semblance of a break. Then when he saw that his team might not win, Mathewson was called upon to prove himself a hero. He did it by a ripping single in the tenth inning that won the game.

As a result of Mathewson's prowess the Giants went back to New York tonight on even terms with the Athletics.

As an exhibition of his class, ball and sensational play the game was all that could be desired.

**TIE IN TENTH**

For nine innings the rival clubs battled without advantage; brilliant fielding and brilliant strategy shut out runs that appeared within the tenth with the chance of darkness settling over the park the hero of the game terminated the contest just as the dramatic would have staged the final scene. The Athletics had a chance to win in the ninth and many thought poor generalship on the bench and coaching lines threw away the one opportunity that the fortunes of baseball cast their way.

Both Mathewson and Plank had pitched games that were little short of wonderful up to this point and Plank was beginning to falter under the strain. With the Athletics at the bat in the last half of the ninth and but a solitary run needed to close the contest, Strunk opened with a single and second, Barry bunted toward Larry Doyle, who ran in and scored the ball up, whirled and threw wildly past Willie at first in an attempt to catch the Athletics' shortstop.

**DOYLE ERRS**

The ball rolled clear to the right field grand stand, while Strunk and Barry rushed around the bases. Strunk was held at third, although he had ample time to score.

It was the Athletics' lone chance for Willie and Mathewson cut down their Athletics in a few minutes after a brilliant exhibition of infielding and then came the Giants' rush to victory. Larry McLean, who substituted for Meyers when the Indian pitcher split his finger in practice, slipped to right field in the tenth inning. Grant ran for him and reached second on Willie's sacrifice.

Mathewson then clinched the game with his clean smash to center on which Grant scored. Right here the Athletics cracked. Herzog hit to Collins who threw to Barry to catch Mathewson at second. Apparently Barry was unable to see the ball except to dodge it as it flashed by on the way to left field. Mathewson and Herzog gained an additional base on the misplay. Plank hit Doyle filling the bases. Fletcher followed with a bouncer over Baker's head scoring Mathewson and Herzog, and the Athletics had two more runs than were needed, as it ultimately proved, to win the game.

### TEAMS PLAY EVEN

Aside from the brilliance of Mathewson the two teams were evenly matched. Plank was not quite as steady as his rival in the box, giving two bases on balls and hitting one out to Mathewson's relief pass. The Giants secured seven hits off Plank to the Athletics' eight from Mathewson, who struck out five batters to Plank's six. New York had

### SCORE BY INNINGS

New York..... 000 000 000 0—3  
Philadelphia..... 000 000 000 0—0

### SUMMARY

Sacrifice hits—Collins, Witte. Left on bases—New York, 8; Philadelphia, 10. First on base—Off Mathewson, 1; off Plank, 2. First base on errors—New York, 1; Philadelphia, 2. Hit by pitched ball—Plank, 5; by Mathewson, 5. Time, 2:22. Umpires—Connolly at plate, Rigler on bases; Klem, left field; Egan, right field.

Eight left on bases to Philadelphia's ten, Fletcher, McLean and Mathewson secured two hits each, a total of six of the seven recorded by the Giants. Baker was the only Athletic player to get to Mathewson for more than one hit, the home-run batsman being credited with two.

Had it not been for Mathewson's remarkable exhibition in the box and at bat, George Witte would have been hailed as the star of the game. His playing brought him praise from the players and grandstands.

**HERZOG LEADS**

After the conference between the umpires and Manager McGraw and Captain Dan Murphy were over, the Athletics took the field and Herzog led off for New York. He sent a high fly to Collins and was out. Captain Doyle drove a fly to Strunk in center field, and Fletcher ended the inning by falling a victim to a strike.

The home rosters cheered Edna Murphy as she faced the old reliable Mathewson. His first pitch, unusual for him in a world's series game, was a fast ball. The second was a strike, and then Murphy sent a slow grounder to Doyle. The New York captain in his anxiety to make a quick throw to head off the fleet runner let the ball go between his legs and Murphy was safe. Oldring slashed a single to left, sending Murphy to second. Collins, as expected, sacrificed. Snodgrass, Doyle, advancing both runners. "Hit 'er out, Baker!" shouted the Athletic routers as the home run hero stepped to the plate, picked up some dirt and rubbed it on his hands.

Mathewson, unperturbed, pitched a wide instant, a ball. Baker fouled the next two offerings. On the next pitch the hard-hitting third baseman was out on strikes. McLeary tried to turn, leaving Murphy and Oldring stranded on the bases.

**DOYLE EFFECTIVE**

Burns, first up for New York in the second, struck out on Plank's cross-fire ball. Shaffer hit up a long fly that fell into Murphy's hands, and Murray

## Plank and Matty Fight Greatest Contest in History of Shibe Park

E. Murphy (top) and Red Murray.

### FIRST INNING

Giants—Herzog popped out to Collins. Doyle out on a short fly to Strunk. Plank used his famous cross-fire ball. Fletcher fanned. No runs, no hits, no errors.

Athletics—Mathewson sent up a drop curve which missed the plate by scarcely an inch. The second ball pitched was a strike. Doyle made a horrible error on Murphy's bouncer, the ball filtering through his legs. This gave the Athletics a chance to cheer. Mathewson put two strikes over on Oldring and then Oldring singled to left, sending Murphy to second. Collins sacrificed. Snodgrass to Doyle, advancing Murphy and Oldring. Then came Home Run Baker to bat. Mathewson's first pitch was a ball, Baker fouled off the next one. Baker fouled off another one and it was two strikes and one ball on the big Athletic batter. Baker fanned. Mathewson sent up another for the third strike. McLeary tried to Burns. No runs, one hit, one error.

### SECOND INNING

Giants—Plank had nice control and easily fanned Burns. Shaffer flied out to Murphy. Plank shot two strikes over on Murray in quick succession. Then gave him a ball. Murray fanned, reaching wildly for an outcurve which he missed by a foot. No runs, no hits, no errors.

Athletics—Doyle tossed out Strunk at first and made a nice play of it. Barry out on a high fly to Burns. Mathewson put over two strikes on Lapp and Lapp fanned on the third ball pitched him. It was nice pitching by Mathewson. No runs, no hits, no errors.

### THIRD INNING

Giants—It was noticed that Meyer's right hand was completely done up in bandages and it is believed that he was hurt seriously by a ball at first supposed. This may keep him out of the series. McLeary out on a pop fly to Barry. Snodgrass singled over to base. He limped badly going to first. Mathewson was given a good hand as he came to the plate. Plank tried to catch Snodgrass at first by giving a pitch out to Lapp who threw quickly to McLeary in time to tag the runner. Matty sent a long fly to center, advancing Snodgrass to third. On Strunk's throw toward third Mathewson was quickly disposed of by Plank who struck him out.

The Athletics did not trouble Mathewson in the second inning. Strunk shot a grounder to Doyle, who tossed the fast runner back over his head. Burns took care of Barry's high fly, and Lapp struck out.

The best that Larry McLean could do when he came to the bat in the third inning for New York was to pop up a fly to Barry. Snodgrass shot a single into left field and the crowd got its first idea of the New Yorkers' "charley-horse" for he hobbled slowly to first. Plank sent up a very wide outcurve, which Lapp shot to McLeary, but Snodgrass was easily under the throw and safe at the bag.

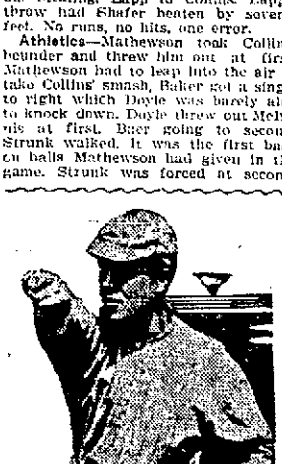

Mathewson threw a long single to center field, and Snodgrass limped, just beat the throw to third, the Giants' pitcher going to second, Witte here replaced the crippled Snodgrass. Herzog batted a grounder to Plank, who caught Witte between third and second. Mathewson moved up to third on the play and Herzog took second. Doyle flied out to Oldring after having three balls and two strikes.

The Athletics were quickly disposed of in their half of the third. Plank was thrown out, Doyle to Witte, who replaced Snodgrass at first. Eddie Murphy, attempting to surprise the giant infield, bunted, but Mathewson fielded the ball in fine shape and nipped the runner at first. Oldring shot a fast grounder to Herzog, who made a pretty throw to Doyle, retiring the side.

### PLAY IS FAST

Fletcher, when he went to bat in the fourth, slashed the ball to Barry, who made a fine stop and throw to first, getting the ball there ahead of the runner. Herzog struck out for the second time. Plank sent a long fly to center, which Shaffer hit a grounder to Baker, who threw low and Shaffer was safe. A moment later, he dangled for

the ball bounding out of his glove hand while on the dead run, Murphy out on a long drive to Burns, who made a beautiful catch while running toward the center field fence. Plank out when Fletcher took Oldring's

Barry (top) and Shaffer.

### SIXTH INNING

Giants—It was a pitchers' duel of the finest order, both Plank and Mathewson holding the opposing batters in check. Doyle was out at first when Plank speared his bouncer and tossed it to first. Fletcher sent up a foul to McLeary. It was the first fly caught today. Burns out on a fly to Murphy. No runs, no hits, no errors.

Athletics—Collins almost knocked a safe bunt but Umpire Connolly called it foul. Collins fanned. Baker fouled off the first two balls. Baker out, Fletcher to Witte. Fletcher made a dazzling stop, going down behind second and spearing Baker's hot drive on the run. He made a quick recovery and had his man ready at first. McLeary fanned. No runs, no hits, no errors.

### SEVENTH INNING

Giants—Slater out on a fly to Strunk. Murray out on a pop fly to Doyle. McLean out on a long drive to center, who had to back up against the left field fence to get the ball.

No runs, no hits, no errors.

Athletics—Strunk out on a fly to Lapp, who made a dazzling snatching catch. He came in on the run for the ball. Herzog threw out Barry. Lapp scratched a hit through Witte. It was a puzzling bouncer. Plank flied to Fletcher.

No runs, one hit, no errors.

Giants—Witte out. Collins to McLeary. The crowd gave Mathewson a great cheer in recognition of his wonderful pitching. Mathewson out on a fly to Murphy, who took the ball off the tops of the grass and then turned and complete comersault. Herzog flied to Strunk. It was a pretty running catch.

No runs, no hits, no errors.

Athletics—Murphy out to Witte, unassisted. Fletcher threw to Oldring. Collins singled sharply to left. Baker singled to center. Collins going to second. Collins out when Herzog took McLeary's grounder and touched third.

No runs, two hits, no errors.

### EIGHTH INNING

Giants—Doyle out on a fly to Strunk. Fletcher singled to center. Barry walked. Shaffer out on a fly to Oldring. Murray out on a high fly to Murphy.

No runs, one hit, no errors.

Athletics—Strunk singled to center. Barry batted safely and had crossed more than fifty feet when he picked up the ball and threw to the left field stand. Strunk went to third and Barry to second. Strunk was out at the plate when Witte took Lapp's grounder and threw to McLeary, who touched third. Barry went to third. Barry was caught on the line when Witte took Plank's grounder and threw to McLeary, who threw to Herzog, who threw to Mathewson, who touched out Murphy.

No runs, two hits, one error.

Giants—McLeary singled to right. Grant ran for McLeary. Witte sacrificed. Plank touching him on the line. Grant scored on Mathewson's line single to center. Herzog grounded, Collins threw to left field trying to catch Mathewson. Mathewson went to third and Herzog took second. Doyle was hit by a pitched ball. Plank was firing fast and had lost his speed. Mathewson and Herzog scored on Fletcher's single, which bounded over Baker's head. Burns struck out. Shaffer flied out to Murphy.

Athletics—Wilson catching for New York. Oldring out, Herzog to Witte. Collins fanned. Doyle took Baker's grounder and threw him out at first.

No runs, no hits, no errors.

### TENTH INNING

Giants—McLeary singled to right. Grant ran for McLeary. Witte sacrificed. Plank touching him on the line. Grant scored on Mathewson's line single to center. Herzog grounded, Collins threw to left field trying to catch Mathewson. Mathewson went to third and Herzog took second. Doyle was hit by a pitched ball. Plank was firing fast and had lost his speed. Mathewson and Herzog scored on Fletcher's single, which bounded over Baker's head. Burns struck out. Shaffer flied out to Murphy.

Athletics—Wilson catching for New York. Oldring out, Herzog to Witte. Collins fanned. Doyle took Baker's grounder and threw him out at first.

No runs, no hits, no errors.

San Francisco Consulate is raised in rank.

San Francisco, Oct. 8.—The appointment of H. A. Van Cotten, formerly as consul general of the Netherlands at San Francisco by Queen Wilhelmina was made known here today. This marks the elevation of the post from a consulate, which formerly was occupied by George A. Murphy. A vice consul will be sent shortly. The new consul general has been for twenty-three years a resident of California.

## 20,000 PHILADELPHIA FANS

### GO MAD OVER EXCITING PLAY

Total Receipts for Day Exceeds Fifty Thousand Dollars; Crowd Stands in Line After Midnight; Rain Falls Throughout the Night

The paid attendance at today's game was 20,533. Total receipts amounted to \$40,640, of which the national commission received \$4,864. Each club's share was \$35,776 and the players' receipts \$28,805.60.

PHILADELPHIA, Oct. 8.—According to the figures of the National Commission, the attendance was approximately 5000 less than the first game here in 1911, but the receipts \$4000 greater, due to the increase in the prices for seats this season.

Probably 4000 more saw the game from points of vantage outside the park. The two rows of brick houses that overlook Shibe Park on two sides were literally swarming with spectators. The thrifty householders charge fifty cents to a dollar for the privilege.

Lines of men and boys stood all night in the drizzle awaiting the opening of the gates to the bleachers and long before noon this section of the stands was crowded to its utmost capacity.

**QUAKERS BASEBALL MAD.**

All Philadelphia was baseball mad today and thousands packed Shibe Park to its capacity. With one victory wrested from the Giants the Athletics were keen to capture the second contest.

A Scotch mist as thick as a New England fog kept the thousands on the anxious seat, fearing a heavy downpour that would stop the game.

An industrious brass band tried to keep the minds of the fans off the weather.

The entire infield and far into the outer gardens was covered with canvas. Later the covers were peeled off, leaving the diamond in fine playing condition.

The umpires looked over the playing field at 11 o'clock and officially reported that the grounds were in fit condition for a game.

The Athletics were first on the field. They were garbed in their usual home uniforms of white. They were followed shortly by the Giants who wore their traveling uniforms of gray.

An automobile was presented to Walter Johnson, starting the heavy pitcher, for the most useful player in his team of any player in the American league. The crowd gave Johnson a big cheer.

**THOUSANDS WAIT**

Despite a drizzling rain which set in before midnight and continued early today more than a thousand fans camped outside Shibe park, many of them since 4 o'clock yesterday afternoon, in order to get choice bleacher seats for the second contest.

Ticket speculators were much in evidence on the streets today and at the hotels and a number of the coupons were disposed of at many times their face value. One \$2 seat for the three days sold for \$40. The vendors generally refused to sell the seats separately.

Police arrangements include a special detail of men to guard the Giant leader and all his players while in this city. Five hundred blue coats and more than fifty plainclothes men have been assigned to duty at the park, while many detectives will be distributed through the crowd in the stands to protect the spectators from pickpockets. It is said that orders have been issued to suppress open betting on the contest.

**PHILLIES HEROES**

All the regulars on the Athletic team arrived home in good condition and will be found at their positions today. Fred Merkle, first baseman on

the New York team, is suffering from a sprained ankle, received yesterday, and may have a problem to fill that position in case Merkle does not play.

The Giants took things easy at their hotel prior to the game, keeping indoors much of the time because of the damp weather.

The Athletics were heroes for the day and wherever they went, all of them had orders to report at Shibe park by 10 o'clock and there was a big crowd about the players' gate all morning.

"Home Run" Baker was given an enthusiastic reception. Collins, whose wonderful playing yesterday had much to do with victory was also notably welcomed. Bender, the big Indian pitcher, having won his game, was practically excused for the day, but he expected to put on a uniform and take an easy workout.

"Home Run" Baker was given an enthusiastic reception. Collins, whose wonderful playing yesterday had much to do with victory was also notably welcomed. ## VENETIANS WIN FROM DUCKS AGAIN

**Patsy O'Rourke Breaks Up a Stubborn Pitching Battle**

LOS ANGELES, Oct. 8.—Patsy O'Rourke broke up a stubborn pitching battle between Bill James and Spider Babin today, driving out one of the 'Tigers' two safeties in the eighth inning, which nullified the winning run. Score: Venetians 3, Portland 2.

Spider Babin, running by the Venetians, enabled them to win on two hits and James' wildness was responsible for their presence on the bases. He hit two batters, made a wild pitch and walked six. The seven hits authored by Portland off Babin were well scattered.

By defeating the Beavers today Venetians advanced to within seven and one-half games of the leaders. Score:

## WILL TRY TO KEEP DISEASED DUCKS OFF MARKET

Market Hunters Will Ship  
Sick Fowls Is Opinion  
of Ferguson

Arrest of Poachers at Tulare  
Lake; Clarke Investi-  
gates Situation

To prevent market hunters from shipping ducks infected with the infectious disease that has prevailed in parts of California for the past four years, to San Francisco and other markets, the State Fish and Game Commission will in all probability take the matter up with the State Board of Health, according to a statement by A. L. Ferguson, district fish and game commissioner, yesterday afternoon. The duck season does not open until October 15, but already market hunters have been caught with diseased ducks in their possession.

The question of shipping diseased ducks was brought to the attention of Ferguson yesterday afternoon by a letter from J. W. Snailley and J. H. Matthews of Lemoore of the arrest of three Japanese market hunters. Before Justice Light of Lemoore the three men pleaded guilty and escaped with a fine of \$25 each. According to the testimony the men were taken into custody at Tulare lake on Sunday, where they had captured the diseased on a line and pumped lead into the birds in order to make officials be-

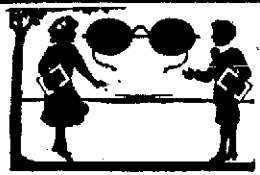

## FACE COVERED WITH PIMPLES-- RESINOL CURED

Atlanta, Ga., April 24, 1913.—"When I received the sample of Resinol Soap and Resinol Ointment my face was covered with pimples which defied other creams, soaps and cosmetics. They were a source of constant humiliation to me, coming in contact with many strangers as I do, as a business woman."

"By the time I had finished a cake of Resinol Soap and half a jar of Resinol Ointment, my skin was soft, as velvet, and as smooth. My friends were astounded, and everyone asked me what I had done. When I told them, I think they hardly believed it, for the transformation was so wonderful."

"Since then I have been using Resinol Soap and shall never be without it again, for I have learned the delights of a clear, soft, beautiful complexion that may be attained by its constant use." (Signed) Miss E. P. Gaudin, 231 South Pryor St.

Resinol Ointment and Resinol Soap stop itching instantly and speedily heal eczema, and other skin humors, dandruff, sores, burns and piles. Sold by every druggist. For free trial, write to Dept. 17-R, Resinol, Baltimore, Md.—Advertisement

## How About That Child's Eyes?

Are you watching out for them? There will be lots of study this year, the eyes will suffer if there is the slightest defect. It requires the greatest care to prevent impairing the vision.

Let us examine them and head off trouble with the right glasses.

## Baseball Bulletins

Reports by innings of the games of the world series will be bulletined at the Fresno Republican, K and Tulare streets, this morning and throughout the series. The Associated Press report is received by operator in the Republican office as fast as flashed across the continent and is placed at once on the street.

lieve the fowl had been shot. The men were arrested on the charge of having ducks in their possession out of season.

"The state faces a critical situation," said Ferguson yesterday afternoon in regard to the disease. "The Fish and Game Commission has no authority to stop market hunters from shipping the diseased birds, which are fat and in good condition; we can only prosecute a hunter in case he takes more than the limit."

"Tulare and Buena Vista lakes seem to be the two places where the diseased ducks are most prevalent. Several weeks ago a member of the commission stood on the shores of Buena Vista lake in Kern county and counted 2,000 sick ducks. The number is equally as great on Tulare lake."

"Experiments have not proved as yet whether or not the disease can be communicated to human beings. If it is steps to prevent the marketing of the fowls should be taken at once. It is probable that the commission will take the matter up with the State Board of Health."

"This disease was first called to my attention four years ago. At that time scientists of the University of California undertook to determine its nature, but to no avail. The United States Department of Agriculture made an investigation and finally determined that the disease was encelosis, a duck cholera."

"The result of the experiments did not prove satisfactory to the commission, however, and for this reason, Frank C. Clarke of the University of California has been sent to Tulare lake to carry out a series of experiments. Clarke has been working on the case for the past two weeks and we are in hopes that he will make some discovery before the opening of the duck season."

## "GETS-IT" Gets Corns Sure as Fate

If You've Had Corns for Months or Years, "GETS-IT" Will Remove Them All in a Few Days.

"What! hurts way up to my heart. I've tried everything, but 'GETS-IT' is at hand. 'GETS-IT' is the only real cure my any corn ever had. Put 'GETS-IT'."

"I Don't Wonder People Go Crazy Happy Over 'GETS-IT'. It Gets Every Corn Sure and Quick!"

on in 2 seconds, and away they go, shrivel, vanish. No more cotton-rings to make the corn sharper and more bulky, no more bandages to stop circulation and stick to the stocking, no more salves to turn the flesh raw and make the corn "pull," no more knives or razors with danger of bleeding and blood poisoning.

"GETS-IT" is painless, stops pain, and is absolutely harmless to healthy flesh. Warts and bunions disappear. "GETS-IT" gives immediate relief.

"GETS-IT" is sold at Druggists' at 25 cents a bottle, or sent on receipt of price to J. Lawrence & Co., Chicago.

## MUSCATS ARE SHORT MORE THAN 40 PER CENT

Sultanas and Thompsons  
Are About 37 Per Cent  
Less Than Last Year

Misleading Circular Sent  
Out By Armsby Co.,  
Says Madison

Careful investigation and replies from nearly 4,000 growers show the Muscat raisin crop to be short more than 40 per cent and Thompsons and Sultanas short 37 per cent.

This was the statement made yesterday by James Madison, manager of the Associated Raisin Company. The Associated has been conducting an investigation for some time to determine the raisin shortage, and cards were sent out to all growers to be filled in and returned.

In connection with his statement regarding crop shortage, Madison issued another statement showing what means some of the outside packers are taking to discredit the ability of the Associated to handle this crop.

"In a circular issued by J. K. Armsby, under date of September 26, it is stated that on September 1 there were 20,000 tons of old raisins on hand," he said. "This at least is 2,000 tons more than the raisins that were actually on hand."

"They also state that the 1912 crop will be 55,000 tons. From the best information obtainable, that we now have in hand, there will not be produced in this state 20,000 tons of raisins of all descriptions from the crop of 1912. They are leading the trade to believe that there will be from 15,000 to 20,000 more tons of raisins than the actual output."

"They further state that there will be from 5,000 to 10,000 tons of second crop, if they are correct. Now everybody knows that the second crop this year is extremely small, and with the good prices the wineries are offering, there will be no second crop cured."

"We call the growers' attention to these misleading statements which are not to their interest, and we feel confident in saying that we will undoubtedly be able to market all the raisins of the 1912 crop as well as what is produced this season. All we ask is that every grower live up to his contract and not strengthen the hand of the opposition."

## ASSOCIATED IS HANDLING ABOUT \$100,000 A DAY

Covering City Block In Han-  
ford With Iron Roof  
for Raisin Storage

The California Associated Raisin Company is receiving and paying out money at the rate of \$100,000 a day, according to a statement made yesterday by James Madison. This will continue for some time until the bulk of the raisin crop has been moved.

The offices of the Associated present an unusually busy scene. Growers and packers can be seen there in large numbers at all hours of the day and a large force of clerical help is necessary to care for the large accounts.

Growers are now rushing their goods in to the Associated so that the facilities of the company for storage are being swamped. In Hanford the greater part of city block has been turned over to the company to be used for raisins and a corrugated iron roof is being erected over this space.

## SAVINGS MADE ON SAND CREEK BIDS

Supervisors Postpone  
Award of Contract Until  
This Afternoon

The supervisors find themselves justified in having three calls for bids for the Sand Creek Mountain road continuation, a reduction in the lowest offered tender resulting from each set of figures. The latest lowest bid is \$201 less than the lowest in September and \$1391 less than the lowest in August, the September lowest being \$1730 lower than the lowest in August. The comparative bids are the following:

OCTOBER TENDERS:

P. F. Ball .....	\$ 9,493
J. E. Mitchell .....	9,650
C. M. Baker .....	9,900
B. O. Lovelace .....	10,393
M. E. Griffes .....	10,900

SEPTEMBER TENDERS:

M. E. Griffes .....	\$ 9,700
B. O. Lovelace .....	11,339
Thompson Bros. ....	12,233

AUGUST TENDERS:

H. O. Lovelace .....	\$11,430
Thompson Bros. ....	11,475
J. E. Mitchell .....	12,330

Action in the award of contract on the third set of tenders on the amended specifications was postponed yesterday until this afternoon.

## NEW POSTOFFICE IN HIGH SIERRAS

A new postoffice has been established at Basin, Fresno county, and James G. Bass of Big Creek has been appointed postmaster. Basin is at the upper terminus of the Big Creek railroad.

FIVE SPEEDERS CITED.  
Five more speeders cited victims of the police yesterday and were cited to appear in police court this morning at 10 o'clock. The arrests were made in the afternoon between the 700 and 1200 blocks on A street. The motorists cited are M. Burleigh, T. R. Carson, A. Craig, A. B. Campbell and Emmitt Ringha.
